### **Grading the Portfolio**

**80 points for completed projects (date, photo, name, elements and principles, materials used, comments)**

**10 points for table of contents**

**10 cover page**

**10 points for neatness and organization**

**Contents: Date, A photograph of the design, a description of what the design is ,the principles and elements used in the design, the materials used, and comments on the design.**

## Example of a page in the portfolio

**Date:** September 28, 2022

**Design:** Design for the home

**Materials used:** 12 roses, 1 orchid, two aspidistra leaves, moss, foam, container

**Principles and elements used:** Elements used balance, line, form, and color are important in this design. Emphasis on the focal area and movement in the design create harmony and a pleasing aesthetic design.

**Comments:** This design was harder to construct than it looked. The simplicity of the design was created by careful placement of each component. As there were few flowers and foliages it was important to put the product in the right placement to create balance.
