COURSE CONTENT

Outcomes and Objectives:

Upon completion of this class, students will be able to:

1. Define key terms relating to physical, cognitive, social and emotional development of the 3, 4, and 5-year-old children.

- 2. Describe typical developmental expectations for children ages 3-5.
- 3. Evaluate appropriate strategies for adult interactions with this age group.
- 4. Apply developmental theory to children in a variety of contexts.
- 5. Use observational skills to evaluate the growth and development of 3-5-year-old children.

Topics and Scope:

- I. Domains of development
 - A. Physical and motor development
 - B. Cognitive and language development
 - C. Social-emotional development
- II. Characteristics of development of 3, 4, and 5-year-olds
- III. Role of play in 3, 4, and 5-year-old child development
- IV. The role of the adult in supporting optimal growth and development
- V. Application of developmental theory
 - A. Role of family
 - B. Societal expectations
 - C. Role of caregiver
 - D. Developmental risks of child abuse
 - E. Developmental differences and special needs
- VI. Introduction to observation methods
 - A. Running records
 - B. Anecdotal records

Assignment:

Representative assignments:

- 1. Reading assignments of approximately 20-30 pages per week.
- 2. Written responses to reading and class discussions, 1-2 pages weekly.
- 3. Observation report on a licensed group care program, 2-4 pages.
- 4. Writing assignment that integrates theory and practice, 2-4 pages.

5. Conduct a naturalistic observation of a 3- 5-year-old child and write a 2-4 page report using anecdotal and/or running records.

6. Two exams including quizzes, midterm, final or final project.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Observation reports; written responses

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Naturalistic Observation

Exams: All forms of formal testing, other than skill performance exams.

Exams, including quizzes, midterm, final or final project.

Other: Includes any assessment tools that do not logically fit into the above categories.

None
