## Certificate/Major Applicable:

Both Certificate and Major Applicable

## **COURSE CONTENT**

## **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Establish an orchard so as to ensure optimal production.
- 2. Select appropriate apple varieties and rootstocks for planting.
- 3. Monitor an orchard for pests and utilize appropriate pest management control approaches.
- 4. Manage harvest and post-harvest operations.

#### **Objectives:**

Upon completion of this course, the student will be able to:

- 1. Comply with state and federal regulations pertaining to the production of organic apples.
- 2. Establish an orchard so as to ensure optimal production.
- 3. Select appropriate apple varieties and rootstocks for planting.
- 4. Manage the orchard floor to control weed competition and provide appropriate access.
- 5. List common diseases of apples and describe the symptoms and control methods.
- 6. List the common physiological disorders of apples and describe the symptoms and control methods.
- 7. Monitor an orchard for pests and utilize appropriate pest management control approaches.
- 8. Manage harvest and post-harvest operations.
- 9. Prune and train apple trees for optimal production.
- 10. Install and manage an irrigation system.
- 11. Discuss marketing considerations for organically grown apples.

#### **Topics and Scope:**

- I. Overview of the Organic Apple Industry
  A. Trends in organic production and markets
- B. Supply and price response
- C. Regulation of California organic apple production methods, including certification
- II. Orchard Management

### A. Orchard culture

- 1. Site selection
- 2. Land preparation
- 3. Planting
- 4. Rootstock selection
- 5. Variety selection
- 6. Tree nutrition and fertilization
- 7. Fruit thinning
- 8. Pruning
- 9. Irrigation timing
- B. Orchard floor management
  - 1. Weed control
  - 2. Cover crop selection and management
  - C. Irrigation system
    - 1. Installation
    - 2. Management
  - D. Equipment requirements
- III. Disease and Pest Management
  - A. Apple diseases
    - 1. Major apple diseases
      - a. apple scab
      - b. fire blight
    - 2. Minor apples diseases
      - a. powdery mildew
      - b. phytophthora root and crown rot
      - c. oat root fungus
      - d. dematophora root rot
      - e. sappy bark
      - f. southern blight
      - g. European canker
      - h. post-harvest rots
      - i. viruses
  - B. Physiological disorders
    - 1. Major: bitter pit
    - 2. Minor
      - a. water core
      - b. apple measles
  - C. Insect and mite management
    - 1. Major
      - a. codling moth
      - b. aphids
    - 2. Minor
      - a. mites
      - b. tentiform leafminer
      - c. leafrollers
  - D. Vertebrate pest management
    - 1. Deer
    - 2. Gophers
    - 3. Rabbits
    - 4. Birds
- IV. Harvest and Post-harvest Operations
- A. Pre-harvest factors

- B. Harvesting and packing
- C. Apple storage
- D. Sanitation during processing of organic apples
- V. Marketing Considerations
- A. Quality
- B. Demand
- C. Marketing channels
- D. Promotion
- VI. Economic Performance
- A. Yield
- B. Labor management
- C. Estimated costs and expected returns for organic apples

## **Assignment:**

Farm plan.

Lab activities.

None

Assignments may include:

- 1. Develop a farm plan, including irrigation issues, fertilization, equipment needs, and marketing strategy (3-5 pages).
- 2. Lab: activities assigned according to the season in Shone Farm apple orchard e.g., pruning, monitoring for orchard pests, weed control methods for orchard floor.
- 3. Assigned reading totaling approximately 60 100 pages.

#### Methods of Evaluation/Basis of Grade:

computational problem solving skills.

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-

None

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Evams. All forms of formal testing other than skill

**Exams:** All forms of formal testing, other than skill performance exams.

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Participation/attendance

Writing 30 - 50%

Problem solving 0 - 0%

Skill Demonstrations 30 - 50%

Exams 0 - 0%

Other Category 10 - 20%
