COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Explain how culture functions by describing variations in cultural traditions (including social structures, systems of value, notions of identity, power structures, and spiritual beliefs) using appropriate anthropological terminology.
2. Compare and contrast historical and contemporary approaches to anthropological study, including the professional ethical obligations of anthropologists using contemporary methods to study human groups today.
3. Analyze the economic, political, and sociocultural forces of globalization and evaluate how they are reshaping various cultures today.

Objectives:

Upon completion of this course, students will be able to:

1. Identify and analyze patterns of diversity (uniqueness) and global culture (interconnected or interrelated patterns of culture).
2. Identify and apply the concepts of cultural relativism, ethnocentrism, and globalization.
3. Evaluate various human responses to similar social and environmental

challenges.

4. Apply introductory terms and concepts used in contemporary ethnographic description.
5. Locate on a world map a diversity of cultures presented in readings and class sessions.
6. Synthesize and critique various field methods and theories regarding the study of culture today and in the past.
7. Classify and analyze patterns of cultural change due to European Colonialism in the past and influence of globalization in the present.

Topics and Scope:

To be explored in local, regional, and global (or interconnected) contexts

- I. The concept of culture in local and global use today
- II. History of Anthropological Theory
- III. Variations in collecting and analyzing cultural data
 - A. Ethnography
 - B. Ethnology
 - C. Applied Anthropology
 - D. Ethical issues faced by contemporary anthropologists
- IV. Cultural relativism and objectivity
- V. Language and communication in individual and global cultural contexts
- VI. Human relationships with nature
 - A. Subsistence
 - B. Patterns of environmental balance
- VII. Economic exchange in various cultural and global settings
 - A. Reciprocity
 - B. Market exchange
- VIII. Kinship, marriage, and the family
 - A. Gender roles
 - B. Kinship systems and terminologies
- IX. Childrearing and its relationship to personality in regional and global settings
- X. Religious or belief systems as forces of human unification and/or conflict
- XI. Culture change and the future of globalization in anthropological perspective
 - A. Indigenous groups and national governments
 - B. Multinational corporations
 - C. The Internet

Assignment:

Representative Assignments:

1. Read a minimum of 20 pages per week in course texts or supplementary readings.
2. Write a minimum of 1500 words in the form of analyses, response papers, field studies, summaries, or book reviews.
3. Optional assignments may include quizzes, projects, presentations, attendance or in-class participation.
4. Two to four examinations, including a final.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Reaction papers, analyses, field studies, and/or book reviews

Writing
20 - 30%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Essay and multiple choice exams

Exams
60 - 70%

Other: Includes any assessment tools that do not logically fit into the above categories.

Group projects and/or presentations

Other Category
10 - 20%
