COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Use advanced features of Excel to create, modify, and use macros, charts, and PivotTables.
2. Create and use advanced formulas and functions.
3. Use advanced worksheet/workbook options and settings (such as protection, password encryption, etc.)

Objectives:

Upon completion of this course, students will be able to:

1. Manage workbook options and settings.
2. Apply custom data formats and layouts.
3. Create advanced formulas.
4. Create advanced charts and tables.

Topics and Scope:

I. Manage Workbook Options and Settings

A. Manage workbooks

1. Copy macros and cell references between workbooks
2. Save workbook as a template
3. Enable macros

B. Manage workbook review

1. Restrict editing and protect a worksheet
2. Manage workbook versions
3. Encrypt workbook with a password

II. Apply Custom Data Formats and Layouts

A. Apply custom data formats and validation

B. Apply advanced conditional formatting and filtering

C. Create and modify custom workbook elements (themes, macros, form controls)

D. Prepare a workbook for internationalization

III. Create Advanced Formulas

- A. Apply functions in formulas (Logical operations: AND, OR, NOT; Statistical operations: SUMIFS, AVERAGEIFS, COUNTIFS)
- B. Look up data by using functions (VLOOKUP, HLOOKUP, MATCH, INDEX)
- C. Apply advanced date and time functions (NOW, TODAY)
- D. Perform data analysis and business intelligence (Goal Seek and Scenario Manager)
- E. Troubleshoot formulas
- F. Define named ranges and objects

IV. Create Advanced Charts and Tables

- A. Create advanced charts
- B. Create and manage PivotTables
- C. Create and manage PivotCharts

Assignment:

1. Completion of assignments, exercises, drills, and/or homework
2. Final project to demonstrate skills presented in the course
3. Completion of quizzes, tests, or other assessments in the classroom or online (5 - 15)
4. Attendance and participation in the classroom and/or online environment
5. Reading approximately 40-50 pages per week
6. Assignments related to software functions and formatting applications

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Assignments, exercises, drills, and homework

Problem solving
20 - 70%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Software functions and formatting applications

Skill Demonstrations
10 - 50%

Exams: All forms of formal testing, other than skill performance exams.

quizzes, tests, or other assessments/projects

Exams
5 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Other Category
0 - 20%
