COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Identify and demonstrate fundamental cardiovascular/respiratory principles.
2. Demonstrate and explain exercises and muscle groups specific to muscular strength and endurance.
3. Identify and apply exercises and methods for flexibility improvement, body awareness, and body composition.

Objectives:

At the conclusion of this course, the student should be able to:

1. Perform cardio/respiratory activities.
2. Monitor exercise intensity using exercise heart rate and perceived rate of exertion.
3. Perform exercises specific to individual muscle groups through repetition.
4. Identify specific muscles involved in performing resistance exercises.
5. Perform a variety of exercises to develop flexibility.
6. Perform movement activities to increase the level of body awareness.
7. Explain methods of measuring body composition.

Topics and Scope:

I. Warm-up Activities

- A. Low intensity cardio/respiratory exercise
- B. Stretching

II. Cardio/Respiratory Conditioning such as:

- A. Jogging/Walking
- B. Jump rope
- C. Step exercise
 1. Bench stepping
 2. Bleachers
- D. Cycling /Spinning

- E. Circuit training
- F. Other forms of aerobic group exercise
- III. Muscular Development
 - A. Strength
 - B. Endurance
 - C. Use of resistance training methods
- IV. Flexibility
- V. Theory
 - A. Fitness testing (fitness level assessment)
 - B. Heart rate
 - 1. Calculate exercise training zone
 - 2. Rate of perceived exertion
 - C. Muscle identification
 - D. Safety and injury prevention
 - E. Body composition

Assignment:

Students are expected to spend an additional one and one-half hours per week outside of class completing one or more of the following assignments:

1. Fitness assessment such as pre and post-testing
2. Cardio/respiratory conditioning, muscular strength and endurance, and/or flexibility exercises.
3. Exercise 1 hour per week per unit in addition to regularly scheduled class meetings
4. One to three Objective quiz(zes) and one to three midterm(s)
5. Final exam
6. One to two page written report(s) and/or journal(s) (1 - 4)
7. Body composition calculation
8. Exercise heart rate calculation
9. Performance exams

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Report(s) and/or Journal(s)

Writing 5 - 10%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Calculation of body composition and/or exercise heart rate
--

Problem solving 5 - 10%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance exams, fitness assessment

Skill Demonstrations 10 - 30%

Exams: All forms of formal testing, other than skill performance exams.

Quiz(zes), midterm(s), final exam

Exams
10 - 30%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and Participation, outside activity

Other Category
40 - 60%
