### **CID:**

CID Descriptor: PSY 170 Introduction to Social Psychology

SRJC Equivalent Course(s): PSYCH30

### **Certificate/Major Applicable:**

Both Certificate and Major Applicable

## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Describe and analyze the theories and areas in Social Psychology
2. Evaluate the assets, limitations, and ethics of the various research designs and explain how research findings can be generalized across time and cultures.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Discuss the major psychological research theories in the field of social psychology.
2. With examples, describe and apply various types of research methods used for studying social behavior.
3. Explain how individual personality characteristics (e.g., motivation, feelings, attitudes and cognitive processing) and environment (e.g., norms and cultural rules) interact to influence the individual's goals, beliefs and decision-making processes.
4. Compare and contrast the four core processes of social cognition (attention, interpretation,

- judgment and memory).
5. Define self-presentation and analyze how self-presentation is important to appearing likable, appearing competent, and conveying status and power.
  6. Distinguish the difference between persuasion and cognitive dissonance, and appraise how these concepts create attitude changes.
  7. Differentiate among various types of social influences (e.g. conformity, compliance and obedience).
  8. Discuss reasons for obtaining mates and reasons for ending relationships.
  9. Compare and contrast the genetic, neural and chemical, and social situational influences of aggression and aggressive behaviors.
  10. Provide definitions, causes, and ways of reducing stereotypes, prejudice and discrimination.
  11. Evaluate how theories of cooperation/conflict, competition/altruism, and conservation/short-sighted selfishness positively and negatively affect the immediate and global environment in which people live.

### **Topics and Scope:**

- I. Introduction to Social Psychology
- II. Methodology: Research Methods
- III. Social Cognition: How We Think About the Social World
- IV. Social Perception: How We Come to Understand Other People

  - C. Resolution
- XIV. Integrating Social Psychology: Attaining a Sustainable Future

### **Assignment:**

1. Read approximately 35 pages per week
2. Writing assignment that may include research, experiential, response, or project for a minimum of 1,250 words
3. Quizzes, exams, and a final
4. Oral presentation and/or group project may be assigned

### **Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Research, experiential, response, or project paper

Writing  
30 - 60%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving  
0 - 0%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations  
0 - 0%

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes, Exams, and a Final

Exams  
40 - 60%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Oral presentation and/or group project

Other Category  
0 - 10%
