COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Expand their knowledge base in a chosen area of mathematics through independent research.

Objectives:

At the conclusion of this course, the student should be able to:

1. Utilize mathematics in the solution of important problems.
2. Demonstrate competence in the skills from the selected study topic.
3. Formulate and execute a strategy to solve stated problems.

Topics and Scope:

Contents will vary with the student, but generally will reflect a student's special interests and abilities.

Assignment:

Assignments (e.g. reading reports, term papers, homework problems, oral or poster presentations, objective exams) for Math 49 will vary with the student and sponsoring instructor.
