Total Out of Class Hours: 35.00

Total Student Learning Hours: 78.75

Title 5 Category: AA Degree Applicable

Grading: Grade Only

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: APTECH 45

Catalog Description:

In this course, students will learn drawing-based manual drafting with a cursory introduction to Computer-Aided Drafting (CAD) for comparison. Topics include proper use of drafting tools, development of linework and lettering skills, procedures for geometric constructions, freehand drafting/sketching, orthographic projection, and isometric drawing.

Prerequisites/Corequisites:**Recommended Preparation:****Limits on Enrollment:****Schedule of Classes Information:**

Both Certificate and Major Applicable

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Describe the role of drawing and drafting in contemporary industries
2. Utilize manual drafting equipment to produce technical drawings
3. Compare manual drafting to Computer-Aided Drafting (CAD) methods

Objectives:

At the conclusion of this course, the student should be able to:

1. Describe drafting career and employment opportunities in contemporary industries
2. Select appropriate drafting equipment and supplies
3. Utilize drafting tools effectively in the production of drafting projects
4. Produce consistent linework on drafting projects
5. Produce legible lettering in drafting projects
6. Execute geometric constructions
7. Execute sketching and freehand drafting
8. Develop orthographic projections and isometric drawings
9. Utilize dimensioning conventions
10. Prepare hand-drafted working drawings
11. Compare manual-drafting to CAD-drafting processes

Topics and Scope:

- I. Introduction to Contemporary Drafting
 - A. History of the profession
 - B. Drafting occupations and industries
 - C. Language of drawing
 - D. Design process

- E. Contemporary drafting
- F. Types of basic engineering graphics
- II. Drafting Equipment and Supplies
 - A. Conventional drafting supplies
 - B. Conventional drafting equipment
 - C. Production of copies and prints
- III. Drafting Conventions and Formats
 - A. Linework
 - 1. Conventions
 - 2. Use of tools
 - 3. Drawing procedure
 - 4. Construction linework
 - 5. Reproducible linework
 - B. Lettering
 - 1. Conventions
 - 2. Lettering shapes
 - 3. Lettering practice
 - C. Drafting conventions
 - D. Drawing formats
- IV. Geometric Construction
 - A. Use of compass and other tools for geometric constructions
 - B. Basic geometric drafting techniques
 - 1. Dividing lines
 - 2. Constructing regular polygons
 - C. Complex geometric constructions
 - 1. Tangencies of lines, arcs, and circles
 - 2. Fillets
- V. Freehand drawing
 - A. Sketching for technical drawings
 - B. Freehand drafting techniques
- VI. Introduction to Multiview Orthographic Projection
 - A. Principles
 - 1. Selection of views
 - 2. Freehand three-view drawings
 - 3. Planes of projection
 - 4. Angles of projection
 - 5. Visualization
 - B. Drawing procedures
 - C. Orthographic projections from incomplete data
 - D. Isometric drawing
 - 1. Introduction to isometrics
 - 2. Drawing isometrics using instruments
- VII. Dimensions and Tolerances
 - A. Systems of dimensioning
 - B. Dimensioning elements
 - C. Dimensioning guidelines
 - D. Tolerancing basics
 - E. Surface finish notation
- VIII. Overview of CAD applications - Comparison of Manual Drafting to CAD

All topics are covered in the lecture and lab portions of the course.

Assignment:

Lecture-Related Assignments:

1. Weekly reading assignments (1-5 pages)
2. Quiz(zes) (1-3)
3. Final exam

Lab-Related Assignments:

1. Linework and lettering exercises (2-5)
2. Manually drafted technical drawings (6-8)

Lecture- and Lab-Related Assignments:

1. Freehand drawing exercises (4-8)
2. Geometric construction exercises (5-10)
3. Orthographic and isometric projection sketches (5-10)
4. Basic CAD drawing(s) (1-2)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Exercises; drawings; sketches

Problem solving
60 - 70%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Quiz(zes)

Skill Demonstrations
5 - 10%

Exams: All forms of formal testing, other than skill performance exams.

Quiz(zes); final exam

Exams
15 - 25%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation

Other Category
0 - 10%
