		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 70.00

Total Student Learning Hours: 157.50

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly:

Catalog Description:

Emphasis on assessing and preparing for medical office emergencies. Students will practice procedures and instructions for giving First Aid and performing CPR techniques. Electrocardiography procedures will be examined, recording a 12-lead electrocardiogram, applying a Holter monitor, and recognizing cardiac arrhythmias.

Prerequisites/Corequisites:

Course Completion of MA 63A

Recommended Preparation:

Eligibility for Engl 1A & MA 60 (formerly MSR 60, MSR 69) or 6 months' experience in a medical office.

Limits on Enrollment:**Schedule of Classes Information:**

Description: Emphasis on assessing & preparing for medical office emergencies. First Aid & CPR techniques will be practiced. Electrocardiography recording, Holter monitor use, and cardiac arrhythmias will be studied & applied. (Grade or P/NP)

Prerequisites/Corequisites: Course Completion of MA 63A

Recommended: Eligibility for Engl 1A & MA 60 (formerly MSR 60, MSR 69) or 6 months' experience in a medical office.

Limits on Enrollment:

Transfer Credit: CSU;

Repeatability: Two Repeats if Grade was D, F, NC, or NP

COURSE CONTENT

Outcomes and Objectives:

At the completion of this course, the student will be able to:

1. Distinguish between emergency & nonemergency situations.
2. Apply assessment techniques to
 - a. perform telephone triage
 - b. perform visual triage
 - c. prepare for an emergency
3. Perform CPR on an adult, child, and infant.
4. Perform Heimlich maneuver on a conscious adult, child, and infant.
5. Administer first aid for the listed emergencies.
6. Record a 12-lead electrocardiogram.
7. Mount and label an electrocardiogram.
8. Instruct a client regarding the wearing of a Holter monitor.
9. Apply a Holter monitor.
10. Teach a client about angina pectoris and coronary artery disease and supply educational materials.

Topics and Scope:

- I. Emergency Medical Procedures
 - A. Medical emergencies
 - B. Crash cart
 - C. Emergency medical services system
 - D. First aid kit
 - E. OSHA safety precautions
 - F. Primary assessment
 - G. Guidelines for providing emergency care

- H. Emergencies: breathing, cardiac arrest, heart attack, stroke, shock, bleeding, wounds, musculoskeletal injuries, burns, seizures, poisoning, heat & cold exposure, & diabetic emergencies.
- I. Medicolegal considerations in emergency situations.
- II. Electrocardiography
 - A. Anatomy and physiology of the heart
 - 1. structure and conduction system
 - 2. cardiac cycle and ECG cycle, including waves, baseline, segments, and interval.
 - B. ECG equipment
 - 1. exercise tolerance testing
 - 2. electrocardiograph, standardization and leads
 - C. Electrocardiogram
 - 1. marking and mounting
 - 2. electrocardiographic capabilities
 - 3. artifacts
 - 4. technique for running a 12-lead electrocardiogram, single-channel
 - D. Holter monitor electrocardiography
 - 1. principles and equipment
 - 2. application of Holter monitor
 - E. Cardiac arrhythmias
 - 1. descriptions
 - 2. clinical aspects
 - 3. electrocardiograms
 - F. Patient Teaching: Angina pectoris and coronary artery disease
 - 1. Answer questions clients have about angina pectoris.
 - a. What is it? What are the causes, symptoms, diagnostic tests, and treatments?
 - 2. Supply clients with educational materials on angina and coronary artery disease.

Assignment:

1. Complete reading assignments, 15-30 pages per week.
2. Complete written assignments:
 - a. vocabulary assessment in workbook, 10-20 words per week.
 - b. self-evaluation related to reading, 10-30 questions per week.
 - c. critical thinking skill applications, 10-25 applications per week.
 - d. charting related to competencies, 1-3 per competency.
3. Practice weekly clinical skill competencies in lab setting under instructor supervision.
4. View emergency procedure videos, 5-15.
5. Achieve satisfactory score on skill performance evaluation checkoff as each clinical skill is completed.
6. Demonstrate actions to be taken in 5-20 simulated emergency situations, roleplaying medical assistant and client responses.
7. Observe and demonstrate electrocardiogram competencies:

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework

Writing
20 - 50%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Quizzes

Problem solving
10 - 15%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Performance exams

Skill Demonstrations
30 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
10 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
