COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Compare and contrast major world regions with respect to location, natural environments, peoples, cultures, political systems, resources, and economies.
2. Recognize and interpret the spatial distribution of Earth's physical and cultural features using maps and other geographical tools.
3. Analyze world events and contemporary issues using geographical methods and tools, and explain how globalization shapes the modern world.

Objectives:

During this course, students will:

1. Locate places, regions and major physical features of the world.
2. Use, analyze and interpret maps.
3. Demonstrate awareness and knowledge of regions with respect to their unique cultural,

- political, economic, social, historical and physical geographical patterns.
4. Define and describe major geographic concepts and use them to recognize the distribution of cultural and physical features on Earth's surface.
 5. Utilize geographic concepts and terms to explain consequences of globalization.
 6. Explain the underlying social and physical geographic forces shaping global events.
 7. Identify and explain the impacts of human-caused environmental problems on world populations.

Topics and Scope:

- I. Regional Geography as a Discipline
 - A. Physical and social science methods
 - B. Location and place
 - C. Maps and map reading
- II. Themes of World Regional Geography
 - A. Globalization
 - B. Realms and regions
 - C. Physical environment
 1. Landforms and surface features
 2. Weather phenomena and global weather patterns
 3. Biomes
 4. Climate and climate change
 5. Natural resource use and environmental impacts
 - D. Human geography
 1. Historical context
 2. Population and settlement patterns
 3. Culture
 4. Political setting
 5. Economic and social development
 - E. Application (minimum of five major world regions)
 1. Anglo America
 2. Mexico, Central America, and the Caribbean
 3. South America
 4. Sub-Saharan Africa
 5. North Africa and Southwest Asia
 6. Europe
 7. Russia
 8. Central Asia
 9. South Asia
 10. East Asia
 11. Southeast Asia
 12. Oceania

Assignment:

1. Readings (20-40 pages per week)
2. Written homework; mapping/problem solving exercises; in-class activities; online assignments (5-20)
3. One to two-page written papers (1-4) and/or a 4-8 page written project
4. Presentations (0-2)
5. Discussion board posts (0-15)
6. Quizzes (4-20)

7. Exams (3-5)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Homework, papers, and/or written project

Writing
15 - 40%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Mapping/problem solving exercises

Problem solving
0 - 15%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes and exams

Exams
50 - 80%

Other: Includes any assessment tools that do not logically fit into the above categories.

Participation and attendance; in-class activities; presentations; discussion board posts

Other Category
0 - 15%
