COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Demonstrate proper power lifting techniques to safely and successfully engage in power lifting activities
2. Create and implement a progressive training program for power lifting

Objectives:

At the conclusion of this course, the student should be able to:

1. Demonstrate proper skills/techniques and safety of power lifting
2. Identify muscle groups and explain their relationship to the various lifts
3. Explain and identify important warm up and stretching exercises for power lifting
4. Incorporate basic nutrition into power lifting
5. Developed a personalized power lifting program based on personal levels of fitness and goals

Topics and Scope:

- I. Basic Muscular-Skeletal Anatomy of Major Muscle Groups
- II. General Power Lifting Principles
 - A. Technique and form including
 1. Squat
 2. Deadlift
 3. Bench Press
 - B. Safety
 - C. Warm up/stretching for power lifting
 - D. Care and use of equipment
 - E. Physiology and principles of training of strength, speed, and power
- III. Muscle Groups
 - A. Legs
 1. Quadriceps

- 2. Hamstrings
- 3. Gluteals
- 4. Gastrocnemius
- B. Chest
 - 1. Pectoralis Major
 - 2. Pectoralis Minor
- C. Shoulders
 - 1. Deltoids
 - 2. Rotator Cuff
- D. Back
 - 1. Trapezius
 - 2. Latissimus Dorsi
 - 3. Rhomboids
 - 4. Erector Spinae
- E. Core
 - 1. Rectus Abdominus
 - 2. External and Internal Obliques
 - 3. Transverse Abdominus
- IV. Basic Spotting Techniques
- V. Basic Nutritional Concepts in Relation to a Power Lifting Program
 - A. Pre workout meal
 - B. Post workout meal
- VI. Proper Progression of Technique for Various Power and Olympic Lifts
 - A. Foundational
 - B. Experienced
 - C. Advanced
- VII. Developing a Power Lifting Program
 - A. Program design
 - B. Rest periods
 - C. Power periodization
- VIII. Optional Training
 - A. Power cleans
 - B. Hip Sled
 - C. Sprint drills
 - D. Plyometric training
 - E. Spring and jump training

Assignment:

Students are expected to spend an additional one and one-half hours per week outside of class completing one or more of the following assignments:

- 1. Power lifting workouts
- 2. Development of personalized power lifting program
- 3. Identify personal power lifting goals
- 4. Demonstrate proper spotting technique
- 5. Written personal fitness assessment and progression tracking
- 6. Exam(s) and quiz(zes) (1-3)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written assessment and progression tracking

Writing
5 - 10%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Power lifting program design

Problem solving
5 - 10%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Performance of power lifting exercises

Skill Demonstrations
10 - 25%

Exams: All forms of formal testing, other than skill performance exams.

Exam(s) and quiz(zes)

Exams
15 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation in class, the completion of out of class workouts, and the development of as personalized power lifting program

Other Category
40 - 60%
