# **COURSE CONTENT**

## **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Define basic medical terminology relevant to human anatomy, physiology, diseases, medical procedures and treatments, including medical abbreviations, for all body systems.
- 2. Identify root words, prefixes, and suffixes commonly used in medical terminology

## **Objectives:**

At the conclusion of this course, the student should be able to:

- 1. Describe the primary functions of each of the body systems using correct medical terminology.
- 2. Label or define the major anatomical parts of each body system.
- 3. Define medical terms related to diseases, procedures, treatments, and abbreviations for each body system.
- 4. Define word parts that pertain to each of the body systems.
- 5. Identify the various reports, abbreviations and symbols used in the medical record.
- 6. Identify common disorders and their associated symptoms for each body system.
- 7. Identify the medical specialties associated with each body system.

# **Topics and Scope:**

- I. Introduction to Medical Terminology
  - A. Word roots, combining forms
  - B. Spelling, pronunciation
  - C. Prefixes
  - D. Suffixes
- II. Organization of the Body
  - A. Structure of cell, tissues, organs, and systems
  - B. Medical specialties related to body systems
- III. The Medical Record

- A. Medical reports
- B. Abbreviations
- C. Symbols

IV. Body Systems Including Integumentary, Gastrointestinal, Respiratory, Cardiovascular, Blood and Lymph, Musculoskeletal, Urinary, Male Reproductive, Female Reproductive, Endocrine, Eye, Ear and Nervous Systems

- A. Structure and function
- B. Medical terminology
- C. Diseases and their symptoms
- D. Diagnostic, radiographic, clinical, and surgical procedures
- E. Pharmacology and treatment
- F. Abbreviations

## **Assignment:**

- 1. Textbook reading (10-30 pages per week)
- 2. Complete workbook lessons and worksheet handouts (10-20 pages per week)
- 3. Students will create study materials for medical terminology spelling and pronunciation (not graded)
- 4. Write a medical research paper, accurately using medical information and terminology (3-8 pages)
- 5. Quizzes (8-16)

Research paper

6. Midterm and final exam

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or noncomputational problem solving skills.

Workbooks and worksheets

Problem solving 15 - 25%

Writing

15 - 25%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations 0 - 0%

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes; midterm and final exam

Exams 50 - 70%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

None	Other Category 0 - 0%
