COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Perform measurements and calculations used in carpentry
2. Build roof and ceiling systems safely using appropriate materials, codes, and tools
3. Build stair systems safely using appropriate materials, codes, and tools

Objectives:

At the conclusion of this course, the student should be able to:

1. Understand and apply jobsite safety practices
2. Use measuring tools correctly
3. Understand and apply mathematical calculations used in carpentry
4. Work effectively within a crew structure
5. Demonstrate quality work
6. Understand and apply the materials, tools, and techniques used in roof and ceiling systems
7. Understand and apply the materials, tools, and techniques used in stair systems

Topics and Scope:

- I. Review of Safety
 - A. Daily tail-gate safety meeting
 - B. Occupational Safety and Health Administration (OSHA)
 - C. Personal Protective Equipment (PPE)
- II. Review of Measuring and Common Calculations
 - A. Common measurements in residential building
 - B. Common construction calculations

III. Roof and Ceiling Framing

- A. Principles of roof and ceiling framing
- B. Roof and ceiling materials
- C. Roof and ceiling tools
- D. Building a roof and ceiling

IV. Stairs

- A. Principles of stair framing
- B. Stair-building materials
- C. Stair-building tools
- D. Building stairs

V. Applicable Building Codes

Assignment:

1. Weekly quizzes
2. Group discussion and problem-solving activities
3. Skill demonstration: safe tool use and carpentry techniques
4. Individual project or presentation

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Group problem-solving activities; individual project or presentation

Problem solving
10 - 30%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Skill demonstration

Skill Demonstrations
55 - 80%

Exams: All forms of formal testing, other than skill performance exams.

Weekly quizzes

Exams
10 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Other Category
0 - 10%
