### **Catalog Description:**

Performance for competency evaluation of radiologic and fluoroscopic procedures in assigned radiology departments under the direct supervision of a registered radiologic technologist. Students draw upon principles of anatomy, patient care, radiation protection, and radiographic technique in the practice of patient positioning. Clinical experience is gained through attendance and completion of the course objectives.

### **Prerequisites/Corequisites:**

Admission to the Radiologic Technology Program or possession of licensure as a radiologic technologist.

### **Recommended Preparation:**

### **Limits on Enrollment:**

# **COURSE CONTENT**

### **Outcomes and Objectives:**

The students will:

1. position patients accurately in all radiographic and fluoroscopic examinations as taught in Rad T 61A, 61B, 61C, and other clinical courses.

- 2. successfully complete the required schedule of competencies.
- 3. complete the clinical hour requirements.

## **Topics and Scope:**

Under the supervision of the clinical instructor at the clinical affiliate, students are to:

1. practice positioning and transporting on patients of all ages and health conditions.

2. prove competency in all radiologic examinations as taught thus far.

3. practice appropriate radiation protection to patients of all ages and health conditions, and to others.

4. conduct in ethical and professional manner.

## Assignment:

Timely and successful completion of the:

1. required schedule of competencies as assigned in the Radiologic Technology Competency Handbook.

2. assigned number of clinical experience hours.

### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because skill demonstrations are more appropriate for this course.

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Field work, Performance exams, Clinical competencies and evaluation

**Exams:** All forms of formal testing, other than skill performance exams.

None

**Other:** Includes any assessment tools that do not logically fit into the above categories.
