COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, students will be able to:

1. Create customized Illustrator settings.
2. Compare the 3 levels of color management and properly apply them.
3. Transfer graphic images between Illustrator, Photoshop and InDesign, and determine the best methodology for transfer.
4. Create charts and graphs from numeric data.
5. Design and apply simple actions.
6. Design and apply symbols.
7. Manage Illustrator layers.
8. Analyze graphic file formats (PDF, GIF, JPEG, PNG, Flash and SVG) file formats for print and web.
9. Create web graphics using web safe colors and pixel support.
10. Analyze a web navigational problem and solve it using an image map and Illustrator styles.
11. Correlate the relationship between a Flash animation and an Illustrator blend.
12. Analyze and apply advanced printing techniques for commercial printing.

Topics and Scope:

- I. Illustrator commands and features
 - A. Illustrator file formats: GIF, JPEG, PDF, PNG, SVG and SWF
 - B. Customizing Illustrator with actions, preferences and templates
 - C. Color management
 - D. Advanced text formatting
 1. Working with Open Type fonts and missing fonts
 2. Advanced character and paragraph formatting
 - E. Transferring Illustrator files to InDesign and Photoshop
 - F. Advanced layers: managing layers, opacity masks, targeting and sublayers
 - G. Other: Effects, styles, charts, clipping masks, Appearance palette, scripts, and 3-D mapping

II. Creating graphics for the web

- A. Image maps, slice tool, making buttons and Save for Web menu
- B. Flash graphics and animations
- C. Understanding SVG graphics

III. Advanced printing techniques

- A. Illustrator print features: separations, crop marks, transparency flattening, overprint techniques
- B. PDF file setting and working with PostScript printers
- C. Tiling and multiple pages

Assignment:

1. Read approximately 20 pages per week from the textbook
2. Complete 10-15 assignments using Illustrator that demonstrate the outcomes and objectives previously stated
3. Create printed documents and PDF files to complete Illustrator projects
4. Complete 2-4 objective examinations

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems

Problem solving
25 - 60%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances

Skill Demonstrations
15 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice

Exams
25 - 60%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
