COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, the student will be able to:

1. Analyze the implications of law and ethics to the medical professional in a variety of health care settings.
2. Demonstrate the ability to act responsibly as the physician's agent with respect to legal requirements of the medical assistant in the medical office.
3. Define legal terminology related to medical law and ethics.
4. Analyze the Medical Practice Act and its implications for physicians and medical assistants in medical offices and discuss the relationship of that document to medical office practice.
5. Describe at least three circumstances that could lead to revocation of the M.D. license.
6. State the regulations and accompanying medical assisting office practices defined by federal, state and local regulations regarding the handling of:
 - A. Narcotics (Controlled Substances Act).
 - B. Treatment of minors.
 - C. Reporting of statistical and communicable disease information.
 - D. Collection practices.
 - E. Confidentiality.
 - F. Family abuse.
 - G. Consent.
7. State the common reasons for lawsuits and evaluate methods and behaviors that promote prevention.
8. Describe the medical assistant's role in obtaining informed consent and list the components of informed consent.
9. Describe the components of a legal contract and distinguish between expressed and implied contracts.
10. Identify situations violating confidentiality and propose solutions for maintaining confidentiality.

11. Use problem-solving techniques to recognize and solve ethical situations related to the medical assistant's role.
12. List at least 6 tasks the clinical medical assistant can perform under California law and at least 3 tasks that are not allowed under California law.
13. Describe the required training for clinical medical assistants.
14. Define a given list of ethical terms.
15. Explain the meaning of the ethical code for medical assistants by listing specific ethical behaviors in the medical office.
16. List at least 5 ethical issues pertaining to medical office practice and argue the pros and cons of each.
17. List 5 ethical issues in modern medicine and discuss the pros and cons of one.
18. State 6 patient's rights as defined by the American Hospital Association.
19. Identify at least 10 common medical office practices that have ethical implications.
20. Reflect a professional approach and exhibit mutual respect for other individuals.
21. Discuss personal values and their relationship to decision making in ethical situations.
22. State or demonstrate at least 10 principles of medical office safety.
23. Discuss environmental safety related to noise control and prevention of common patient accidents.

Topics and Scope:

1. Aspects of Medical Law
 - A. Legal terms
 - B. Sources of law
 - C. Law and the physician
