COURSE CONTENT

Outcomes and Objectives:

Upon completion of the course, students will be able to:

1. Apply principles of design and typography to practical package design projects.
2. Plan package design projects to print out on high-end digital printers.
3. Utilize digital color prints and hand building skills to create professional quality comprehensives.
4. Plan package design projects that can be printed in spot color, four-color process, and include specialty processes.
5. Apply FDA (Food & Drug Administration) requirements to packages.

Topics and Scope:

1. Historical background of packaging
 - a. Development of food preservation
 - b. Creation of the box
2. Digital output and hand skills for creating package designs
3. Effectively communicating on a three-dimensional surface
 - a. Gestalt theory
 - b. Template design
 - c. Functional form
4. Building a mock-up that sells a concept to a client
5. Creating special processes in the design studio
6. Creating a two-dimensional template for a three-dimensional package
7. Creating effective wine packaging
8. Creating effective self-promotional packaging using parody
9. Creating packaging for music and gaming industry
10. Designing point of purchase displays
11. Exploring a career in package design

Assignment:

1. 10 reading assignments of 10 to 15 pages each

2. 10 quizzes on reading assignments
3. Case study box to be created in class
4. Food packaging in the form of a box
5. Self-promotions using a parody of a popular package
6. Wine label design with special processes
7. Promotional CD packaging or packaging for a new video or computer game
8. Group Project: Packaging and identity for business or product (i.e. Hotel)

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

10 quizzes; Designs for effective communication on a 3D space

Problem solving
25 - 40%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Packaging mock-ups: case study, food packaging; Self promotion parody; Wine label; CD/Video packaging; Business or product identity

Skill Demonstrations
25 - 40%

Exams: All forms of formal testing, other than skill performance exams.

True false, multiple choice

Exams
10 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

Class participation

Other Category
0 - 15%
