Total Out of Class Hours: 105.00 Total Student Learning Hours: 157.50

Title 5 Category: AA Degree Applicable

Grading: Grade Only

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: CHILD 10

### **Catalog Description:**

An examination of the major developmental milestones for typically developing children, from conception through adolescence in the areas of physical, social, and cognitive development with an emphasis on the interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences, and analyze characteristics of development at various stages.

Required for Child Development Permits.

### **Prerequisites/Corequisites:**

### **Recommended Preparation:**

Eligibility for ENGL 100 or ESL 100

#### **Limits on Enrollment:**

# **Certificate/Major Applicable:**

Both Certificate and Major Applicable

# **COURSE CONTENT**

# **Outcomes and Objectives:**

Upon completion of this course students will be able to:

1. Describe typical characteristics of the physical, social, emotional, and cognitive development of children, from conception through adolescence.

- 2. Explain various theories of development and methods of research relevant to understanding children's growth.
- 3. Demonstrate objective techniques and skills for observing, describing, and evaluating developmental characteristics and behaviors in children.
- 4. Describe the impact of genetic and environmental interaction on the developing child, including the significance to early brain development.
- 5. Describe brain structure, function, and development from the pre-natal period through adolescence.
- 6. Describe and explain the role of play and its relationship to development at various stages.
- 7. Articulate, using current research, the importance of social-emotional development as the foundation for other domains of development, including factors that influence the development of self-esteem in children of all ages.
- 8. Discuss current research findings as they apply to child development.
- 9. Identify developmentally appropriate practices at different stages of childhood.
- 10. Articulate the role of societal influences including culture, family, gender, school, peers, community, and media on children's development.
- 11. Identify and describe influences that place children and youth at risk and may adversely influence development.

### **Topics and Scope:**

- I. Fundamentals of Child Development
- A. Domains of development
- B. Theories/theorists of development
- 1. Psychoanalytic (Freud and Erikson)
- 2. Behaviorism
- 3. Cognitive (Piaget)
- 4. Sociocultural (Vygotsky)
- 5. Epigenetic (Bronfenbrenner)
- C. Controversial issues in the study of development
- D. Research methodology in child development including observational skills
- E. Holistic, integrated approach to the study of development
- F. Cultural influences on development
- G. Special needs that impact development
- II. Prenatal Development and Birth
- A. Conception
- B. Heredity, genetics and environment
- C. Birthing practices
- III. Infants and Toddlers
- A. Physical growth (biosocial development)
- B. Cognitive development
- C. Psychosocial development
- D. Brain development
- E. Language acquisition
- F. Attachment
- G. Temperament
- H. Infant/toddler care giving practices
- I. Safe and appropriate environments that support development
- IV. The Preschool Child
- A. Physical growth (biosocial development)
- B. Cognitive development
- C. Psychosocial development

- D. Brain development
- E. Language acquisition and development, including dual language learning
- F. Emotional regulation
- G. Prosocial and antisocial behavior including moral development
- H. Parenting patterns
- I. Early learning environments
- J.The importance of play
- V. The School Age Child
- A. Physical growth (biosocial development)
- B. Cognitive development
- C. Psychosocial development
- D. Peer group as a developmental influence
- E. Moral development
- F. Learning environments
- G. Obstacles to learning (ADD [attention deficit disorder], autism, learning disabilities)
- VI. The Adolescent
- A. Physical growth (biosocial development)
- B. Cognitive development
- C. Psychosocial development
- D. Peer group as a developmental influence
- E. Brain development
- F. Decision making and risk taking
- G. Schools, learning, and the adolescent mind
- H. Quest for identity
- I. Parent-adolescent relationship
- J. Sensitive issues in adolescence: substance use/abuse, sexuality, teen pregnancy, eating disorders, criminal
- activity, depression and self-destruction
- VII. Child maltreatment as a developmental influence

## **Assignment:**

Assignments may include the following:

- 1. Reading and discussion of assigned text and handouts. Approximately 30 pages per week.
- 2. Observation, recording and written analysis of children's skills and behaviors using appropriate observational technique and developmental terminology. 3-5 observations of approximately 2-5 pages.
- 3. Written essays for the purpose of utilizing research skills, and expanding knowledge of course content; may include interviews with children and parents. Approximately 2-4 essays of 3 to 5 pages.
- 4. Exams (2-5) on readings, terminology, presentations, and lectures.
- 5. Group research project and/or oral presentation of findings on selected topics in development.
- 6. Term project (case study or other in-depth study using observation, research, and application of developmental theory and terminology)

### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, essays, written analysis of observations; term project.

Writing 35 - 50%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving 0 - 0%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Observation of children at various stages, interviews of children and parents

Skill Demonstrations 15 - 25%

**Exams:** All forms of formal testing, other than skill performance exams.

Multiple choice, true/false, fill in, short answer, essays

Exams 30 - 50%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

None

Other Category 0 - 0%

## **Representative Textbooks and Materials:**

THE DEVELOPING PERSON THROUGH CHILDHOOD AND ADOLESCENCE by Kathleen Stassen-Berger, 8th Edition. Worth Publishers, Inc, New York, N.Y. 2009 CHILDREN by John Santrock 5th ed. Brown & Benchmark, Madison WI, 2007
