## **COURSE CONTENT**

# **Outcomes and Objectives:**

Upon completion of this course, the student will be able to:

- 1. Comply with state and federal regulations pertaining to the production of organic apples.
- 2. Establish an orchard so as to ensure optimal production.
- 3. Select appropriate apple varieties and rootstocks for planting.
- 4. Manage the orchard floor to control weed competition and provide appropriate access.
- 5. List common diseases of apples and describe the symptoms and control methods.
- 6. List the common physiological disorders of apples and describe the symptoms and control methods.
- 7. Monitor an orchard for pests and utilize appropriate pest management control approaches.
- 8. Manage harvest and post-harvest operations.
- 9. Prune and train apple trees for optimal production.
- 10. Install and manage an irrigation system.
- 11. Discuss marketing considerations for organically grown apples.

### **Topics and Scope:**

- I. Overview of the Organic Apple Industry
- A. Trends in organic production and markets
- B. Supply and price response
- C. Regulation of California organic apple production methods, including certification
- II. Orchard Management
- A. Orchard culture
  - 1. Site selection
  - 2. Land preparation
  - 3. Planting
  - 4. Rootstock selection
  - 5. Variety selection
  - 6. Tree nutrition and fertilization

- 7. Fruit thinning
  8. Pruning
  9. Irrigation timing
- B. Orchard floor management
  - 1. Weed control
  - 2. Cover crop selection and management
  - C. Irrigation system
    - 1. Installation
    - 2. Management
  - D. Equipment requirements

# III. Disease and Pest Management

- A. Apple diseases
  - 1. Major apple diseases
    - a. apple scab
    - b. fire blight
  - 2. Minor apples diseases
    - a. powdery mildew
    - b. phytophthora root and crown rot
    - c. oat root fungus
    - d. dematophora root rot
    - e. sappy bark
    - f. southern blight
    - g. European canker
    - h. post-harvest rots
    - i. viruses
- B. Physiological disorders
  - 1. Major: bitter pit
  - 2. Minor
    - a. water core
    - b. apple measles
- C. Insect and mite management
  - 1. Major
    - a. codling moth
    - b. aphids
  - 2. Minor
    - a. mites
    - b. tentiform leafminer
    - c. leafrollers
- D. Vertebrate pest management
  - 1. Deer
  - 2. Gophers
  - 3. Rabbits
  - 4. Birds
- IV. Harvest and Post-harvest Operations
- A. Pre-harvest factors
- B. Harvesting and packing
- C. Apple storage
- D. Sanitation during processing of organic apples
- V. Marketing Considerations
- A. Quality
- B. Demand
- C. Marketing channels

- D. Promotion
- VI. Economic Performance
- A. Yield
- B. Labor management
- C. Estimated costs and expected returns for organic apples

# **Assignment:**

Assignments may include:

- 1. Develop a farm plan, including irrigation issues, fertilization, equipment needs, and marketing strategy (3-5 pages).
- 2. Lab: activities assigned according to the season in Shone Farm apple orchard e.g., pruning, monitoring for orchard pests, weed control methods for orchard floor.
- 3. Assigned reading totaling approximately 60 100 pages.

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Farm plan.	Writing 30 - 50%
<b>Problem Solving:</b> Assessment tools, other than exams, that demonstrate competence in computational or noncomputational problem solving skills.	
None	Problem solving 0 - 0%
<b>Skill Demonstrations:</b> All skill-based and physical demonstrations used for assessment purposes including skill performance exams.	
Lab activities.	Skill Demonstrations 30 - 50%
<b>Exams:</b> All forms of formal testing, other than skill performance exams.	
None	Exams 0 - 0%

Other Category 10 - 20%

## **Representative Textbooks and Materials:**

fit into the above categories.

Participation/attendance

Organic Apple Production Manual. University of California Agriculture and Natural Resources Publication 3403. Regents of the University of California, 2000.
