COURSE CONTENT

Outcomes and Objectives:

Upon completion of the course, students will be able to:

1. Describe and demonstrate final harvest methods.
2. Recommend appropriate soil protection methods during winter months.
3. Discuss various crop rotation and planting techniques for next season.
4. Develop a final accounting of revenues from crop production.
5. Survey CSA customer satisfaction as to final payment.
6. Develop and recommend preliminary planning for the next season's crop.

Topics and Scope:

1. Review of final harvest methods equipment and techniques.
2. Description of soil protection methods.
3. Overview of crop rotation techniques appropriate to CSA concept.
4. Discussion of the effectiveness of IPM program efforts.
5. Description of final accounting techniques and methods of presentation.
6. Review of the overall effectiveness of the CSA effort in terms of crop production, marketing, and financial success.
7. Discussion of planning elements for the next spring season.

Assignment:

1. Keep a semester journal.
2. Develop a model brochure.
3. Develop a crop timing chart.

Methods of Evaluation/Basis of Grade:
