		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 87.50

Total Student Learning Hours: 157.50

Title 5 Category:	AA Degree Applicable
Grading:	Grade Only
Repeatability:	00 - Two Repeats if Grade was D, F, NC, or NP
Also Listed As:	
Formerly:	ELEC 53

Catalog Description:

Fundamentals of Programmable Logic Controllers (PLCs), including PLC types, input and output devices, and ladder logic programming.

Prerequisites/Corequisites:

Recommended Preparation:

Limits on Enrollment:

Schedule of Classes Information:

Description: Fundamentals of Programmable Logic Controllers (PLCs), including PLC types, input and output devices, and ladder logic programming. (Grade Only) Prerequisites/Corequisites: Recommended: Limits on Enrollment: Transfer Credit: Repeatability: Two Repeats if Grade was D, F, NC, or NP

COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Establish electronic communication between a PLC and a personal computer.
- 2. Write and document ladder logic programs for a PLC.
- 3. Install, and test the operation of, a ladder logic Program for a PLC.
- 4. Identify and troubleshoot PLC program problems.

Objectives:

Upon completion of the course the student will be able to:

- 1. Design ladder logic programs and assemble documentation.
- 2. Modify programs using touch screens and teaching pendants.
- 3. Program a PLC using ladder logic and one additional PLC language.
- 4. Identify, troubleshoot, and repair faults in sensors and output devices.
- 5. Identify, troubleshoot, and resolve software problems.
- 6. Originate proper tag-out procedures when working on electrical equipment.
- 7. Interpret and apply safety procedures in a manufacturing environment.

Topics and Scope:

- I. Types of input and output devices
 - A. relay devices
 - B. analog devices
- II. Types of controllers
- III. Types of software
- IV. Fundamental operation of PLCs
 - A. relay inputs and outputs
 - B. analog inputs and outputs
 - C. counters
 - D. timers
- V. Program control instructions
 - A. jump instructions
 - B subroutines

C. sequencers

VI. Electrical tag-out procedures

VII. Basic manufacturing safety

VIII. Wiring

- A. direct current (DC) inputs
- B. alternating current (AC) inputs
- C. relay outputs
- D. transistor outputs
- IX. PLC output devices
 - A. analog
 - B. relay
- X. Troubleshooting techniques
 - A. PLCs
 - B. sensors
 - C. related software
- XI. Touchscreens and teaching pendants
- XII. Human-Machine Interface (HMI)
 - A. operation
 - B. limitations

XIII. Laboratory exercises

- A. safety procedures
- B. programming Allen Bradley RSLogix software
- C. PLC inputs and outputs
- D. numbering systems
- E. programming logic operations
- F. wiring a PLC
- G. troubleshooting techniques
- H. programming Siemens Step7 software

Assignment:

- 1. Reading (10-30 pages per week)
- 2. Homework problems:

Design and interpret relay logic programs (1-2)

Design and interpret ladder logic programs (1-4)

Modify ladder logic programs (1-4)

Assemble software documentation for programs written in two different programming languages (1-4)

3. Laboratory assignments (5-12) including demonstrating operation of a PLC system

4. Quizzes (3-6), midterm, and final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Program documentation

Writing 20 - 50%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems	Problem solving 20 - 30%
Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.	
Laboratory assignments including demonstration of PLC operation	Skill Demonstrations 10 - 30%
Exams: All forms of formal testing, other than skill performance exams.	
Quizzes, midterm and final exam	Exams 20 - 40%
Other: Includes any assessment tools that do not logically fit into the above categories.	
None	Other Category 0 - 0%
