COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of this course, the student will be able to:

1. Explain organic certification procedures.
2. Identify appropriate crops for the Sonoma County climate.
3. Discuss basic principles of irrigation and water management.
4. Distinguish between soil texture and structure.
5. Select appropriate organic fertilizers for specific applications.
6. Distinguish between organic and inorganic fertilizers.
7. Plan and design a garden appropriate to a specific site and crop selection.
8. Construct a compost pile according to principles of composting.
9. Compare the effects of various types of mulches.
10. Identify pests and apply appropriate integrated pest management treatments.
11. Identify local marketing outlets.

Topics and Scope:

- I. Overview of Organic Gardening
 - A. Current status and statistics
 - B. Organic certification procedures
- II. Sonoma County Climate
 - A. General climate / microclimates
 - B. Growing season
 - C. Frost dates
- III. Soils and Irrigation
 - A. Physical properties of soil
 - B. Effects on plant growth
 - C. Basic concepts of soil water
 1. Effect of soil type on water management practices
 2. Water holding capacities
 - D. Soil fertility
 1. Essential elements
 2. Nutrient function
 3. Nutrient deficiencies

IV. Planning and Designing the Garden

- A. Site selection
- B. Layout
- C. Crop selection
 - 1. Cover crops
 - 2. Crop rotation

V. Compost and Mulch

- A. Compost
 - 1. Definition
 - 2. Purpose of composting
 - 3. Key ingredients in compost
 - 4. Factors influencing decomposition
 - 5. Constructing a compost pile
 - 6. Compost application

- B. Mulch
 - 1. Types
 - 2. Effects of various types of mulches
 - 3. Selecting appropriate mulch

VI. Fertilization of Garden Soils

- A. Types of fertilizers
 - 1. Organic
 - 2. Synthetic
- B. Selecting appropriate fertilizer

VII. Managing Pests Organically

- A. Pest ID
 - 1. Weeds
 - 2. Insects
 - 3. Diseases
 - 4. Vertebrates
- B. Integrated pest management methods
 - 1. Prevention
 - 2. Cultural
 - 3. Mechanical/physical
 - 4. Chemical

VIII. Harvest and Post-harvest Handling

IX. Marketing

Assignment:

- 1. Crop report: select a particular crop and write a 2-page report
- 2. Home garden design
- 3. Reading: 10 - 30 pages per week

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Crop report.

Writing 30 - 40%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Home garden design.

Problem solving
30 - 40%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation.

Other Category
30 - 40%
