## **COURSE CONTENT**

**Student Learning Outcomes:**

Upon completion of the course, students will be able to:

1. Analyze the CSA model for operational efficiency.
2. Demonstrate harvesting, packaging, and storage methods and techniques appropriate to in-season crops.
3. Identify and develop potential markets in the community.

**Objectives:**

Upon completion of the course, students will be able to:

1. Identify field management techniques necessary to bring a crop to full production.
2. Build and strengthen skills in harvesting, packaging, and postharvest techniques of in-season crops.
3. Consult with area CSA operations to analyze operating strengths and weaknesses.
4. Demonstrate final harvest methods of in-season crops.
5. Discuss various crop rotation and planning needs for seasonal progression of crops.
6. Effectively communicate farm updates to CSA customers through weekly newsletters.
7. Analyze final accounting of revenues from crop production and suggest areas for improvement.

**Topics and Scope:**

1. Overview of CSA
  - a. History of CSA
  - b. Shone Farm CSA
  - c. CSA models
2. Regulatory requirements of a CSA
  - a. Food Safety requirements
  - b. County and State permitting requirements

3. CSA infrastructure
  - a. Packhouse design
  - b. Box storage and delivery options
  - c. Pricing and billing structures
4. Review of processes necessary to bring CSA crop to necessary production levels
  - a. Supplies and equipment necessary for CSA operations
  - b. Seasonal planning considerations to meet CSA crop demand
  - c. Weekly planning and forecasting
  - d. Overview of seasonal crop rotation procedures appropriate to the CSA model
5. Demonstration of various crop harvesting techniques
  - a. Crop specific harvest methods
  - b. Appropriate use of specific harvesting tools
6. Demonstration of various crop postharvest and packing techniques
  - a. Crop specific postharvest requirements
  - b. Crop specific preparation and packing requirements
7. Maintaining customer relations
  - a. Weekly newsletters
  - b. On-farm events and/or promotions
8. Review of the overall effectiveness of the CSA operation
  - a. Crop production
  - b. Marketing
  - c. Financial viability

**Assignment:**

1. Keep semester journals
2. Apply for a Food Handlers Certification
3. Submit analysis of a local CSA operation
4. Maintain weekly newsletter
5. Mid-terms and final
6. Participation in farm stand
7. Harvest, postharvest handling, packing skills activities and demonstrations

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Semester journals, CSA analysis, weekly newsletter	Writing 30 - 45%
--	---------------------

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

CSA analysis, Food Handlers Certification exercises	Problem solving 10 - 25%
---	-----------------------------

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Harvest, postharvest handling, packing skills demonstrations.

Skill Demonstrations  
20 - 35%

**Exams:** All forms of formal testing, other than skill performance exams.

Written exams; quizzes, 2 mid-terms and 1 final

Exams  
20 - 30%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Participate in at least two farm stands

Other Category  
5 - 10%

**Representative Textbooks and Materials:**

Instructor prepared materials; web-based reading materials.
