COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Upon completion of this course, students will have the ability to perform many standard compositions of the jazz idiom ("standards") with appropriate interpretation.

Objectives:

Upon completion of this course, the student will be able to:

1. Perform approximately 32 songs from the standards repertoire.
2. Interpret melodies in jazz, pop, and Latin styles.
3. Improvise over the chord progressions of standard tunes.
4. Create chord voicings and bass lines (rhythm section players).
5. Perform standards from memory using authentic interpretation and improvise melodic lines over their chord progressions.

Topics and Scope:

The curriculum of this course is approximately 32 standard compositions ("standards") from the jazz repertoire. Each class session will be dedicated to the study of these works. In order to assimilate this material, the following elements of each composition will be examined:

1. Historical context, associated artists, and typical keys of the standard
2. Harmonic analysis of the chord progression
3. Scales and arpeggios needed for improvisation
4. Creation of piano and guitar voicings for the given chord changes
5. Creation of stylistically appropriate bass lines
6. Techniques for memorization of selected standards

Assignment:

1. Study and practice two assigned compositions per week, including melodies, improvisation, chord voicings, and bass lines as appropriate.
2. Listen to definitive recordings of assigned compositions.
3. Practice scales and arpeggios used in performance.
4. Memorize four selected compositions for solo performance.
5. Final exam will be an in-class performance.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Students will perform compositions from the designated repertoire in class

Skill Demonstrations
75 - 80%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

Class participation and attendance

Other Category
20 - 25%
