Catalog Description:

Introduction to archaeology as the scientific study of the human past through analysis of material remains. The course reviews archaeological methods of survey, excavation, laboratory analysis, interpretation and publication; the history of archaeological theory; the development and implementation of CRM; and ethical principles guiding modern archaeological practice. Selected cultural sequences are integrated into the course to highlight the ways in which archaeological practice has contributed to our knowledge of the past.

Prerequisites/Corequisites:**Recommended Preparation:**

Eligibility for ENGL 1A or equivalent

Certificate/Major Applicable:

Major Applicable Course

COURSE CONTENT

Outcomes and Objectives:

Upon completion of this course, students will be able to:

1. Demonstrate a fundamental understanding of archaeological excavation techniques and laboratory methods.
2. Recognize and describe the early evidence for human culture using select cultural sequences.
3. Understand the nature of scientific inquiry and its applications in archaeology.
4. Discuss ethical principles governing archaeological research in the United States and abroad.
5. Identify the major goals, methods and laws of cultural resource management and heritage preservation.
6. Situate archaeology within the broader discipline of anthropology.

Topics and Scope:

- I. The history of archaeology
- II. Types of artifacts and evidence

- III. Scientific method and archaeological research
- IV. Survey and excavation techniques
- V. Dating methods and chronology
- VI. Laboratory analyses and interpretation
- VII. Archaeological theory
- VIII. Cultural resource management and heritage preservation
- IX. Archaeological ethics
- X. Bioarchaeology
- XI. Cultural Sequences

Assignment:

1. Reading assignments (between 5-40 pages per class week)
2. Writing assignments include one 6-10 page research paper or three to four shorter 2-3 page essays on an archaeological topic or an academic-style poster, as well as occasional short answer and essay responses based on homework reading.
3. Students will complete 1-3 exams, which can include multiple choice, true/false, matching items, map identification, short answer, and essay questions.
4. Optional assignments may include short 5-10 minute in-class presentations on an archaeological topic, a poster presentation on an archaeological topic, or completion of short map quizzes.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Essays, or Research papers

Writing
30 - 65%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving
0 - 0%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations
0 - 0%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion, Maps, Essays, Short Answer

Exams
30 - 65%

Other: Includes any assessment tools that do not logically fit into the above categories.

Representative Textbooks and Materials:

STUDENTS PLEASE NOTE: DO NOT BUY TEXTBOOKS before checking with the SRJC Bookstore.

These titles are representative only, and may not be the same ones used in your class.
