Formerly: GUID 90

**Catalog Description:**

An introduction to human services in relation to human/personal development and need across the lifespan. The course explores societal problems and their causes in the context of the human services profession, and involves a critical exploration of the history, standards and theoretical approaches to human service work and meeting peoples' needs. Psychological, physiological and social forces influencing the individual both as helper and client are examined. Students will study national and international welfare systems, the diverse populations served, and the legal, political and social issues that affect individuals within their community.

**Prerequisites/Corequisites:****Recommended Preparation:**

Eligibility for ENGL 100 or ESL 100

**Limits on Enrollment:****Schedule of Classes Information:**

## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Differentiate and examine several perspectives of client problems, barriers to getting help, and the societal influences that impact the life of a client in human services.
2. Distinguish and assess areas of job responsibilities and the roles for human service professionals.
3. Develop an information and referral network in Sonoma and neighboring counties.

### **Objectives:**

Upon successful completion of the course, students will be able to:

1. Outline the historical development of human services and distinguish varying theoretical approaches to human services work.
2. Develop knowledge, values and skills that enable workers to support others in problem solving and in making better use of resources within their communities.
3. Define and research current social issues as they impact people coping with today's societal problems.
4. Differentiate and assess the individual and societal influences across the lifespan that impact the lives of people in need.
5. Compare and contrast the different ways of viewing individual societal problems.

6. Examine their own motivation for choosing a helping profession.
7. Identify causes of societal problems and explain how people become clients.
8. Assess and evaluate the psychological, physiological and social forces contributing to societal problems.
9. Categorize and examine various human service roles and types of career opportunities.
10. Evaluate the ethical and professional issues encountered in the field of human services.
11. Research and describe the goals and/or functions of human service agencies providing services for people in need from a local and global perspective.
12. Compare and contrast the political and economic impact of social issues both nationally and internationally.

### **Topics and Scope:**
