COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Demonstrate the communication skills needed for reporting incident conditions and commanding resources at an emergency incident.
2. Demonstrate the critical thinking, communication and decision making skills necessary to develop and implement a plan of action and manage an emergency.
3. Demonstrate the ability to communicate service demands and to identify the plans used to assist in their mitigation

Objectives:

Upon completion of the course, students will be able to:

1. Identify course objectives, requirements, assignments, activities, evaluation methods and participation requirements
2. Identify the different levels and courses required for certification in the Fire Officer Tract and the capstone task book and testing process
3. Describe the duties of a Level I and II Company Officer and a Level I Wildland Fire Officer
4. Demonstrate the ability to develop an initial plan of action
5. Demonstrate the ability to implement a plan of action
6. Demonstrate the ability to develop and conduct a post-incident analysis
7. Identify the elements of operational plan used to obtain resources and implement plans in accordance with NFPA(National Fire Protection Association) 1600 to mitigate the incident
8. Demonstrate the ability to write a report identifying the causes of service demands with in an agency's service area

Topics and Scope:

I. Orientation and administration

- A. Review of facilities
- B. Review of classroom requirements
- C. Review of syllabus, participation, assignments and evaluation methods

II. Fire Officer Certification track course requirements

- A. Level I requirements
- B. Level II requirements
- C. the capstone task book process
- D. the capstone testing process

III. Duties of a Company (level I) Officer

- A. Use of personnel to accomplish assignments
- B. dealing with the community
- C. General administrative functions
- D. Supervising emergency operations
- E. Conducting inspections and investigations
- F. Implementing health and safety plans and procedures

IV. Developing an initial plan of action

- A. Principles of command
 - 1. Decision making
 - 2. Command presence
 - 3. Risk assessment
- B. Standard operating Procedures (SOP's) for emergency operations
 - 1. Size-up
 - 2. Report on conditions
 - 3. Company operations
- C. analysis of emergency scene conditions for various incidents
 - 1. Single family dwellings
 - 2. Multiple family dwellings
 - 3. Commercial occupancy fires
 - 4. Assembly occupancy fires
 - 5. Mid-rise and high-rise fires
 - 6. Multi-casualty incidents
 - 7. technical rescue incidents
- D. Activating local emergency plans
- E. Allocating resources
- F. Components of the Incident Command System (ICS) 201 briefing form
- G. Effect of fire behavior in a structure

V. Implementing a Plan of Action

- A. Resources available for the mitigation of an emergency
 - 1. Emergency resources
 - 2. Non-emergency resources
- B. Using an incident management system
- C. Scene safety considerations
- D. Mitigating scene safety hazards
- E. Personnel accountability systems
- F. Managing and accounting assigned personnel in emergency conditions
- G. Procedures for the transfer of command

VI. Developing and conducting a Post-Incident Analysis

- A. Elements of a Post-Incident Analysis
 - 1. Strategy and tactics

2. Safety issues
- B. Contributing factors for various incidents
- C. Departmental procedures
 1. Dispatch
 2. Operations
 3. Customer service
- VII. Operational Plans used to mitigate Incidents
 - A. National, state and local informational recourse available to mitigate emergency incidents
 - B. Command staff and unit supervision positions in the Incident management system
 - C. Components of NFPA 1600, Disaster/Emergency Management and Business Continuity Programs
- VIII. Writing Reports Identifying Service Demand Causes
 - A. Interpreting response data to identify reasons for service demands.

Assignment:

1. Pre-course reading and writing assignments of up to three hours
2. 9-10 role playing activities including simulations and table top exercises
3. 2-4 Written exercises and case studies (ICS forms)
4. 2-3 group problem solving scenarios
5. 2-4 quizzes
6. Summative exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

ICS Forms

Writing 5 - 20%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Table top exercises case studies

Problem solving 5 - 15%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Problem solving scenarios

Skill Demonstrations 5 - 15%

Exams: All forms of formal testing, other than skill performance exams.

Quizzes and Summative Exam

Exams 70 - 85%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
