Certificate Applicable Course

### **COURSE CONTENT**

# **Outcomes and Objectives:**

The students will:

- 1. Describe the mission of CAL FIRE and the policies and procedures applicable to seasonal firefighters.
- 2. Demonstrate the correct procedures for radio use and responding to emergency calls.
- 3. Identify the components of basic fire chemistry and wildland fire behavior.
- 4. Identify and demonstrate the use of safety equipment used in wildland firefighting.
- 5. List and describe the orders, situations and practices used to promote safety on the wildland fire ground.
- 6. Demonstrate the hose lays and loads used in wildland firefighting.
- 7. Demonstrate the proper use of fuses and drip torches.
- 8. Describe the proper use of chain saws and flagging tape on the wildland fire ground.
- 9. Describe the use of aircraft in wildland situations.
- 10. Identify the apparatus and their safety devices used in wildfire firefighting.
- 11. List and demonstrate the proper use of hand tools used in wildland firefighting.
- 12. Describe the tactics and strategies used in wildland firefighting operations.
- 13. Describe the tactics and strategies used in wildland urban interface (WUI) firefighting operations.
- 14. Demonstrate the proper techniques for fighting wildland fires.

# **Topics and Scope:**

- I. Orientation
  - A. Cal Fire Mission and Organization
  - B. Policies and regulations

- 1. Ethics, diversity, sexual harassment
- 2. Code of conduct
- 3. Working with inmate fire crews

#### C. Station Operations

- 1. Responding to emergency calls
- 2. Introduction to radio communications

### II. Basic Fire Chemistry

- A. Fire Triangle
- B. Methods of Heat Transfer

# III. Wildland Fire Behavior

- A. Terminology
- B. Fuels
- C. Topography
- D. Weather

# IV. Safety And Risk Management

- A. Wildland Personal Protective Equipment (PPE)
- B. 18 "Watch Out" Situations
- C. Ten Standing Firefighting Orders
- D. Lookouts, Communications, Escape Routes, Safety Zones (LCES)
- E. Common Denominators of Fire Fatalities
- F. Fireline Hazards
- G. Downhill Fireline Construction
- H. Avoiding Entrapment
- I. Human Factors in Wildland Fires
- J. Situational Awareness
- K. Hydration
- L. Self-Contained Breathing Apparatus (SCBA)
- M. Fire Shelters
  - 1. Use
  - 2. Deployment
- N. Fire Blankets and Curtains
  - 1. Types
  - 2. Deployment
- O. Using Vehicles As Refuge
- P. Using Structures As Refuge
- Q. Burn Treatment of Firefighters
- R. Air Tanker Retardant Drop Safety Considerations
- S. Rotary Wing Aircraft Safety Considerations
- T. Bulldozer Operations Safety Considerations
- U. Power Line and Electrical Considerations
- V. Three Strikes and You're Out

# V. Wildland Firefighting Equipment

- A. Fire Hose
  - 1. Sizes and construction
  - 2. Care and maintenance
  - 3. Hose couplings
  - 4. Hose rolls
  - 5. Hose lays
    - a. Progressive hose lays
    - b. Reel line use
  - 6. Picking up and draining hose
    - a. Progressive hose lays

- b. Reel line use
- B. Tools and Equipment
  - 1. Traffic control devices and signals
  - 2. Road flares (fusees)
    - a. How to ignite and extinguish fusees
    - b. Use of fusees as firing tools
  - 3. Drip torch use and maintenance
  - 4. Fireline flagging
  - 5. Chain saw use
- C. Firefighting Aircraft
  - 1. Fixed wing aircraft
  - 2. Rotary wing aircraft
- D. Mobile Equipment
  - 1. Fire apparatus identification
  - 2. Warning devices
  - 3. Chock blocks and seatbelts
  - 4. Backing hand signals
  - 5. Safety vests
- E. Hand Tools
  - 1. Brush hook
  - 2. Pulaski
  - 3. Double bit, single bit and pick-headed axes
  - 4. Round and square point shovels
  - 5. McLeod
  - 6. Wire broom
  - 7. Rhino tool
  - 8. Combi tool
- VI. Wildland Firefighting Principles
  - A. Wildland Firefighting Terminology
  - B. Parts of a Wildland Fire
  - C. Wildland Firefighting Strategies
  - D. Wildland Fire Uses of Water
  - E. Wildland Hose Lay
  - F. Mobile Attack
  - G. Mop-up and Control
  - H. Handline Construction
- VII. Wildland Fire Operations
- VIII. Wildland Urban Interface (WUI) Operations

## **Assignment:**

- 1. Demonstrate 18-26 manipulative and technical firefighting skills.
- 2. Complete 2-4 pages of written homework problems daily.
- 3. Reading 30-80 pages daily.
- 4. Complete a performance exam.
- 5. Attend a minimum of 60 hours of instruction including two overnight sessions.
- 6. Complete 5-7 quizzes and a final exam.

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework

Writing 10 - 15%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems

Problem solving 10 - 20%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, field work, performance exams

Skill Demonstrations 30 - 40%

**Exams:** All forms of formal testing, other than skill performance exams.

4-6 quizzes and final exam

Exams 30 - 40%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Other Category 5 - 10%
