COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Compare and contrast historical and early education perspectives, theories, and program types and philosophies.
2. Describe the role of the early childhood educator, including ethical conduct and professional pathways.
3. Identify indicators of quality in early childhood programs related to the environment, curriculum, and teaching strategies.

Objectives:

Upon completion of the course students will be able to:

1. Compare and contrast a variety of early childhood educational theories, philosophies, program models, and licensing and regulatory structures.
2. Describe principles that define high quality early childhood educational and care programs as they relate to children of all abilities, their families, teachers, program and curriculum development.
3. Describe how observation and assessment are used to develop curriculum, effective teaching strategies, and positive learning environments.
4. Analyze early childhood educational and care practices in a social and cultural context.
5. Define professional development and ethics in Early Childhood Education.
6. Develop strategies to maintain communication and access with English language learners.

7. Identify a variety of positive guidance and interaction strategies that encourage children's social competence and promote a caring classroom community.
8. Construct a professional philosophy of Early Childhood Education, incorporating current information on career pathways and opportunities.
9. Develop a plan for career pathways in the field of Early Childhood Education.

Topics and Scope:

Topics will include but not be limited to:

- I. The Field of Early Childhood Education
 - A. Historical perspectives in early childhood education and care
 - B. Introduction to and comparison of major program models, theories, and philosophies
- II. Principles for Instructional Strategies and Program Components
 - A. The role of observation and assessment for planning and curriculum development
 1. Developmental needs of children
 2. Program components
