COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Differentiate among the various movements in international film history from the 1950s to the present.
2. Evaluate the impact of historical movements, social and cultural trends, and new technologies on the development of motion pictures.

Objectives:

At the conclusion of this course, the student should be able to:

1. Demonstrate a working knowledge of American and international film history from the 1950s to the present.
2. Recognize and distinguish films according to the period in which they were produced.
3. Examine the evolving art of the motion picture in social, cultural, artistic, technological, and economic contexts.
4. Evaluate the contributions of significant historical movements and filmmakers in shaping the history of motion pictures.
5. Relate the transformation of film technology to the evolution of film form, with particular attention to narrative and aesthetic developments.

Topics and Scope:

- I. American Cinema in the 1950s
 - A. The Hollywood studio system after the Paramount Decree
 - B. TV competition, wide screens, and technical innovations
