COURSE CONTENT

Student Learning Outcomes:

Upon completion of the course, students will be able to:

1. Distinguish and group the approaches to real property valuation.
2. Evaluate and measure the appraisal report.
3. Satisfy the California Department of Real Estate elective education requirement for salespersons.

Objectives:

Upon successful completion of the course, students will be able to:

1. Distinguish "land" from "site."
2. Compare and contrast real property versus personal property.
3. Formulate property value basics and principles including substitution, highest and best use, supply and demand, conformity/contribution, and the law of increasing and decreasing returns.
4. Summarize the three basic appraisal approaches including market data, cost, and income capitalization.
5. Produce a residential appraisal in accordance with generally accepted uniform appraisal standards.

Topics and Scope:

- I. Basic Concepts of Real Estate Appraisal
 - A. Land versus site in relation to water rights
 1. municipal
 2. private
 3. riparian
 - B. Real property
 1. fixtures
 2. appurtenances
 3. bundle of rights
 - C. Personal property

- II. Basic Value Principles
 - A. Substitution
 - B. Highest and best use
 - C. Supply and demand
