COURSE CONTENT

Outcomes and Objectives:

1. Apply design methods to a variety of sites, including residential and small commercial properties.
2. Construct detailed elevation and perspective views.
3. Apply color media to landscape drawings.
4. Select appropriate reprographic methods.
5. Understand accepted business practices.
6. Calculate slope and grading needs of a site.
7. Present a design to a client.
8. Recommend phasing of a project.
9. Apply xeriscape principles to a landscape design.
10. Demonstrate advanced use of graphic skills and graphic aids and tools.

Topics and Scope:

1. Introduction: design principles review.
2. Construction detailing.
3. Elevation views from planting plans; site profiles and sections.
4. Landscape design styles for California residences.
5. Xeriscape design methods.
6. Client/designer relations; presentation methods.
7. Planting design and composition; preview of color media.
8. Color media for landscape drawings.
9. Lettering aids and methods.
10. Title blocks and logo design for a landscape business.

Assignment:

Regular design projects.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Written homework, Lab reports, Essay exams

Writing
0 - 10%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Field work, Quizzes, Exams

Problem solving
0 - 20%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Field work

Skill Demonstrations
0 - 50%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion

Exams
0 - 20%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
