COURSE CONTENT

Outcomes and Objectives:

Students completing this course will be able to:

- 1. Comprehend and apply the concepts of cultural relativity,
- ethnocentrism, culture, modernism, post-modernism, and globalization.
- 2. Evaluate varying human responses to similar social and environmental challenges.
- 3. Identify and analyze human cultural universals in distinctive cultural contexts.
- 4. Apply introductory terms and concepts used in contemporary ethnographic description.
- 5. Locate and contrast a broad range of cultures presented in readings and class sessions
- 6. Synthesize and critique various field methods and theories regarding the study of culture today and in the past.
- 7. Classify and analyze the confrontation and/or convergence of local and global culture patterns in recent contexts.

Topics and Scope:

To be explored in local, regional, and global contexts.

- 1. The concept of culture in local and global use today.
- 2. Variations in collecting and analyzing cultural data (ethnography and ethnology).
- 3. Language and communication in individual and global cultural contexts.
- 4. Human relationships with nature; subsistence; and patterns of environmental balance.
- 5. Economic exchange in various cultural and global settings.
- 6. Kinship, marriage, and the family.
- 7. Childrearing and its relationship to personality in regional and global settings.
- 8. Religion and magic as forces of human unification and/or conflict.
- 9. Culture change and the future of globalization in anthropological perspective.

Assignment:

Students enrolled in this class will complete written assignments that involve either classic term paper research or data collection and analysis in a local or field population. All textbooks will be read as homework. Map tests and film response papers may be assigned at preference of the instructor.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Term papers, FIELD STUDY OR BOOK REVIEWS

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items

Other: Includes any assessment tools that do not logically fit into the above categories.

Writing 30 - 40%
Problem solving 0 - 0%
Skill Demonstrations

Exams 60 - 70%

0 - 0%
