COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Describe the stages, procedures, and use of resources for criminal investigations.
2. Analyze and apply essential elements of a crime to all aspects of the investigation.
3. Explain and apply evidentiary value, methods of evidence examination, and the evidentiary chain of custody.
4. Explain methods of investigative documentation from the initial response to the final report.
5. Explain the legal aspects, constitutional safeguards, and ethical considerations applicable to all aspects of the investigative process.
6. Analyze the preparation and presentation of all types of evidence in the pretrial and trial processes.

Objectives:

Upon completion of the course, the student will be able to:

1. Describe the stages and procedures of a criminal investigation.
2. Identify and explain the ethical considerations associated with criminal investigations.
3. Describe the roles, duties, and legal aspects related to investigators and crime scene management.
4. Describe the essential elements of a crime and apply them to aspects of the investigation including evidence collection, interviewing, and interrogation.
5. Identify, recognize, and describe how to determine evidentiary value and utility of an item or statement.
6. Explain and demonstrate methods of documentation in the investigative process.
7. Explain the legal aspects and constitutional safeguards applicable to searches, interrogations, interviews, and identifications.
8. Recognize and describe appropriate evidentiary chain of custody from collection to trial.

9. Identify and describe methods of evidence examination and the role of forensic examination.
10. Explain the legal aspects of surveillance techniques.
11. Identify key investigative resources.
12. Describe the stages of the court process pertaining to investigations and evidence.
13. Identify methods of preparation for trial and presentation of evidence at trial.

Topics and Scope:

I. Introduction to Preliminary Investigation

- A. Investigative process
- B. Initial response
- C. Prioritizing actions and events
