COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Manage the legal and ethical issues facing dental hygienists in the delivery of oral health care, and develop a personal philosophy toward professional conduct, continuous quality assurance self-assessment and life-long learning.
2. Demonstrate knowledge of California State Dental Licensing agencies, the California Dental Practice Act and federal employment laws that address the employment of and practice of dental hygiene in California.

Objectives:

Students will be able to:

1. Determine and justify sound legal and ethical principles in dealing with patients and team members used to solve ethical dilemmas.
2. Explain the role of principles in the decision-making process of the dental hygienist.
3. Describe and apply the ethical decision-making process in dental hygiene.
4. Relate the ethical principles found in the codes of ethics, informed consent, patients' bill of rights and other documents related to patient care.
5. Identify the State agencies and areas of the Dental Practice Act that address the practice of dental hygiene in California and how to locate these documents.
6. Identify the types of dental hygiene procedures delegated under direct and general supervision.
7. Explain the concept of risk management as it relates to the practice of dental hygiene.
8. Discuss state and federal employment laws that have a significant impact on employment.
9. Discuss the disclosure and reporting of abuse including ethical and legal responsibilities.
10. Discuss the role of the dental hygienist in the practice management of the dental practice.
11. Explain economic considerations for a profitable practice, including office overhead, production and collection and insurance.
12. Discuss professional competence, knowledge, philosophy, and demeanor when applying for a position.
13. Identify various employment opportunities for dental hygienists and method of finding positions.
