COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Survey and examine the various forms and types of creativity and innovations -- ideas, ventures, organizations, social and cultural movements.
2. Describe the roots, keys, and sources of creative and innovative business concepts.
3. Identify the drivers behind successful innovations.

Objectives:

At the conclusion of this course, the student should be able to:

1. Demonstrate how to apply creativity and design thinking in developing innovations both as an individual and as part of a team.
2. Understand and experience how innovation is essentially a creative problem solving capability that can be and is applied to a wide variety of opportunities and challenges.
3. Be able to distinguish between different types of innovation, and when technology is a facilitator of rather than the end product of innovation.
4. Understand the role of business models in the innovation process, the fundamental elements of a business model and their interrelationship, and the keys to successful business model innovation.
5. Analyze the commercial potential of creative ideas.

Topics and Scope:

I. Defining Innovation

- A. Types
- B. Sources
- C. Technology

II. Creativity and the Innovation Process

- A. The innovation engine

- B. Fostering creativity / creative cultures
- C. Identification of drivers
- III. Blue Ocean Strategy
 - A. Exploring new market opportunities and customers
 - B. Reshaping market boundaries and value propositions
- IV. Design Thinking
 - A. Customer centered design
 - B. Determining design constraints and requirements
 - C. Empathy Maps
- V. Value Proposition Design
 - A. Customer Profile
 - B. Value Map
 - C. Value Proposition Canvas
 - D. Social Influences
- VI. Ideation and Evaluation
 - A. Ideation techniques
 - B. Problem-solution fit
 - C. Testing and evaluation alternatives
- VII. Assessing Commercial Viability
 - A. Business model design
 - B. Operational and financial considerations

Assignment:

1. Written creativity exercises (3 - 5)
2. Semester-long innovation project (written paper, business model, oral presentation)
3. Project presentations (4 - 6)
4. Final individual reflection
5. Reading of 20-40 pages per week

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Creativity exercises, Innovation project, Final individual reflection

Writing
40 - 60%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Innovation project business model

Problem solving
20 - 30%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Project presentations

Skill Demonstrations
20 - 30%

Exams: All forms of formal testing, other than skill performance exams.

None

Exams
0 - 0%

Other: Includes any assessment tools that do not logically fit into the above categories.

Class Participation

Other Category
0 - 10%
