

**KFIT 2.2 Course Outline as of Summer 2022****CATALOG INFORMATION**

Dept and Nbr: KFIT 2.2 Title: STEP AEROBICS - INTER.

Full Title: Intermediate Step Aerobics

Last Reviewed: 4/27/2020

Units		Course Hours per Week		Nbr of Weeks	Course Hours Total	
Maximum	1.50	Lecture Scheduled	0	17.5	Lecture Scheduled	0
Minimum	1.50	Lab Scheduled	3.00	3	Lab Scheduled	52.50
		Contact DHR	0		Contact DHR	0
		Contact Total	3.00		Contact Total	52.50
		Non-contact DHR	0		Non-contact DHR	0

Total Out of Class Hours: 26.25

Total Student Learning Hours: 78.75

Title 5 Category: AA Degree Applicable

Grading: Grade or P/NP

Repeatability: 00 - Two Repeats if Grade was D, F, NC, or NP

Also Listed As:

Formerly: PHYED 28.2

**Catalog Description:**

The focus of this course is intermediate level step training, an aerobic activity incorporating a platform and sometimes with risers, designed to increase cardiovascular/respiratory fitness and improve muscular strength and endurance. Intermediate step patterns and movement combinations choreographed to music will be presented. Activities may include other forms of aerobic exercise, muscular endurance, core work, and flexibility training.

**Prerequisites/Corequisites:****Recommended Preparation:**

Course Completion of KFIT 2.1

**Limits on Enrollment:****Schedule of Classes Information:**

Both Certificate and Major Applicable

## **COURSE CONTENT**

### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

1. Demonstrate proper intermediate step patterns and techniques in response to cueing while sustaining an optimal exercise heart rate for cardiovascular conditioning.
2. Demonstrate proper stretching, endurance, and strengthening exercises and identify the muscle or muscle group used for each exercise.

### **Objectives:**

At the conclusion of this course, the student should be able to:

1. Define and explain basic principles of physical fitness.
2. Assess perceived levels of exertion during aerobic activities.
3. Calculate and monitor exercise heart rate.
4. Perform safe and continuous intermediate level step patterns choreographed to music for 20-45 minutes.
5. Demonstrate knowledge of basic and intermediate step patterns by responding to cueing by the instructor.
6. Perform safe and effective strengthening and stretching exercises.
7. Identify working muscles by name and identify exercises that use that muscle or muscle group.
8. Discuss basic nutritional concepts relevant to aerobic exercise.

### **Topics and Scope:**

- I. Physical Activity
  - A. Warm-up

- B. Aerobic exercise (continuous exercise for 20-30 minutes performed at intermediate level (exercise heart rate))
- C. Intermediate level muscular endurance exercises
  - 1. Floor exercise
  - 2. Resistance training could include the following
    - a. bands and exercise tubing
    - b. free weights
    - c. stability balls
    - d. body weight
    - e. core training
- D. Cool down segment
  - 1. Aerobic cool down
  - 2. Static stretching
  - 3. Relaxation exercises
- II. Principles of Physical Fitness
  - A. Cardiovascular endurance
  - B. Muscular Strength and Endurance
  - C. Flexibility
  - D. Body Composition
- III. Methods of Measuring Aerobic Exercise Intensity
  - A. Heart rate calculation
  - B. Perceived level of exertion
  - C. The "talk test"
- IV. Physiological and Psychological Benefits of Aerobic Exercise
- V. Review of Major Muscle Groups and Identify Exercises for Each Muscle or Muscle Group
- VI. Basic Nutritional Concepts as they Relate to Aerobic Exercise
- VII. Intermediate Level Step Patterns
  - A. Step combinations: Basic through intermediate level (i.e. more complex and strenuous)
  - B. Basic through intermediate step terminology and understanding instructor cues

### **Assignment:**

Students are expected to spend an additional one and one-half hours per week outside of class completing one or more of the following assignments:

- 1. Calculate target and exercise heart rate
- 2. "Pre" and "Post" Fitness assessments
- 3. Perform aerobic exercise 1 to 2 hours per week in addition to regularly scheduled class meetings
- 4. Practice basic through intermediate step patterns, endurance, strengthening and flexibility exercises
- 5. Writing: 1-3 report(s), step choreography notation, goals, and/or journal
- 6. Choreograph intermediate level step patterns
- 7. Taking 1 to 3 objective quiz(zes), midterm, and/or a final
- 8. Design a personal exercise program

### **Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Report(s), journals, personal exercise program, goals, choreography pattern	Writing 5 - 10%
<b>Problem Solving:</b> Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.	
Target and Exercise Heart Rate	Problem solving 0 - 5%
<b>Skill Demonstrations:</b> All skill-based and physical demonstrations used for assessment purposes including skill performance exams.	
Class performances, performance exams, fitness assessments, choreography performance	Skill Demonstrations 10 - 20%
<b>Exams:</b> All forms of formal testing, other than skill performance exams.	
Objective quiz(zes), midterm, and/or a final	Exams 20 - 40%
<b>Other:</b> Includes any assessment tools that do not logically fit into the above categories.	
Participation	Other Category 40 - 60%
