COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

- 1. Demonstrate basic theoretical understanding of addiction and family system theories.
- 2. Understand key concepts of family process, family development, and lifecycle perspectives.

3. Apply beginning level skills in interviewing and assessing families in order to plan interventions.

4. Demonstrate an understanding of student's own experiences and assessment of client families.

Objectives:

At the conclusion of this course, the student should be able to:

- 1. Differentiate between the major theories of family systems by their goals, techniques and strategies
- 2. Develop understanding of domestic violence, child abuse and neglect in families
- 3. Describe the intergenerational nature of family dynamics and the factors which increase risk for substance abuse
- 4. Describe dysfunctional family roles, values, norms, and various consequences of substance abuse on a family system
- 5. Identify key elements related to the dynamics of family systems that foster family resilience and health
- 6. Demonstrate understanding of student's own experience and to the assessment of client families
- 7. Use different theoretical family therapy understandings to develop interventions in addiction counseling
- 8. Evaluate and apply counseling strategies and techniques for diverse client populations

Topics and Scope:

- I. Theoretical Context of Family Therapy
 - A. Factors associated with defining family
 - B. Individual development and family development
 - C. Qualities of healthy and dysfunctional families
 - D. Family structure and coping strategies of families
- II. Domestic Violence, Child Abuse and Neglect in Families
 - A. Prevalence of domestic violence
 - B. Barriers and levels of violence
 - C. Child abuse and neglect in families
- III. History and Evolution of Family Therapy
 - A. Family therapy versus family-involved therapy
 - B. Major theories of family systems
 - 1. Experiential Family Therapy
 - 2. Behavioral and Cognitive Behavioral Family Therapy
 - 3. Structural Family Therapy
 - 4. Solution Focused Brief Therapy
 - 5. Narrative Family Therapy

IV. Family Therapy and Substance Use Disorder

- A. Goals and effectiveness of family therapy
- B. Complexity of family therapy
 - 1. Co-occurring problems
 - 2. Biological aspects of addiction
 - 3. Socioeconomic constraints
 - 4. Cultural competence
- C. Stages of change and levels of recovery
 - 1. Precontemplation
 - 2. Contemplation
 - 3. Preparation
 - 4. Action
 - 5. Maintenance
- V. Impact of Substance Abuse on Families
 - A. Families with a member who abuses substances
 - 1. Partner (spouse) and minor children
 - 2. Older grown children
 - 3. Parents
 - B. Difference between theory and practice
 - 1. Denial and resistance
 - 2. Family interventions
 - 3. Process and content
 - 4. Self-disclosure
- VI. Integrated Models for Treating Family Members
 - A. Benefits and limitations of integrated models
 - B. Levels of involvement with families
 - C. Integrated models for substance abuse treatment
- VII. Specific Populations

A. Age

- B. Women
- C. Race and ethnicity
- D. Sexual orientation
- E. People with physical or cognitive disabilities
- F. People with co-occurring substance use disorder and mental disorders
- G. Rural population and other contextual factors

Assignment:

- 1. Read assigned textbook and supplemental reading material of approximately 25-35 pages per week
- 2. Participate in group presentation about a family systems topic or major family systems theory
- 3. Write a 2-3 page reflection paper on personal encounter with separation and individuation
- 4. Write a 3-6 page family history paper on a 3 generational family genogram
- 5. Attend an Alcoholics Anonymous (Al-Anon), Adult Children of Alcoholics (ACA), or Codependents Anonymous (CODA) meeting and write a 1-3 page reflection paper about the experience
- 6. Write a 3-6 page paper reviewing a movie or book related to addiction and family systems
- 7. Midterm exam (optional)
- 8. Final exam

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Analysis of reading/movie, reflection papers, family history paper

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Group presentation on family system topic or theory

Exams: All forms of formal testing, other than skill performance exams.

Midterm exam (optional), final exam

Other: Includes any assessment tools that do not logically fit into the above categories.

Attendance and participation

Writing 40 - 70%

Problem solving 0 - 0%

Skill Demonstrations 15 - 35%

Exams	
5 - 25%	

Other Category
5 - 25%
