COURSE CONTENT

Student Learning Outcomes:

At the conclusion of this course, the student should be able to:

1. Utilize appropriate counseling skills and techniques to conduct a client session.
2. Perform a counseling assessment, develop a client treatment plan, and write effective case notes.
3. Engage the client in the helping process from assessment to termination in a multi-session format.

Objectives:

At the conclusion of this course, the student should be able to:

1. Demonstrate knowledge of diverse cultures and incorporate the relevant counseling strategies to the individual characteristics of the client, including but not limited to disability, gender, sexual orientation, developmental level, culture, ethnicity, age, and health status.
2. Establish a helping relationship characterized by warmth, respect, genuineness, concern, and empathy.
3. Work with the client to establish realistic goals and provide psycho-educational resources which contribute to a positive change in substance use behaviors.
4. Utilize theoretical perspectives and helping theory to engage clients and support their progress through recovery's stages of change.
5. Demonstrate appropriate use of active and reflective listening; concreteness, specificity, probing; confrontation; and self-disclosure when working with the client.
6. Utilize a range of ongoing supervisory options to process personal feelings and concerns about clients, while maintaining one's own physical and mental health, and identify needs for referral to more highly skilled professionals.
7. Synthesize information gathered into clear and concise written case notes.

Topics and Scope:

I. Theoretical Perspectives

A. Client-centered counseling

1. Cognitive behavioral approaches
2. Motivational counseling
3. Grief and crisis counseling
4. Relationship-oriented approaches

B. Helping theory

1. Helper value exploration
