Both Certificate and Major Applicable

#### **COURSE CONTENT**

#### **Student Learning Outcomes:**

At the conclusion of this course, the student should be able to:

- 1. Recognize and describe major concepts and theories in understanding human sexuality from historical, contemporary, and multicultural perspectives.
- 2. Analyze and critique historical and current research related to sexuality, sexual identity, and gender.
- 3. Identify factors that influence decision-making pertaining to sexuality and gender development and how they affect psychosexual well-being.

## **Objectives:**

At the conclusion of this course, the student should be able to:

- 1. Discuss the following perspectives when explaining human sexuality: sociological, evolutionary, mass media, gendeR role legacy, and cross-cultural.
- 2. Describe and apply with examples the various research methods used to study sexual behavior; include case studies, naturalistic and laboratory observations, correlational studies, surveys and tests,

- and the experimental method.
- 3. Identify and explain the functions of the female and male internal and external sexual organs and structures and genital health concerns.
- 4. Demonstrate how chromosomal and hormonal processes and social-learning factors influence gender role and gender identity.
- 5. Compare and contrast the males' and females' sexual arousal and responses; include the roles of the brain, the senses, aphrodisiacs and the aging process.
- 6. Explain how Kaplan's model differs from Masters and Johnson's model of describing sexual arousal.
- 7. Describe Sternberg's Theory of Love and Lee's Styles of Loving and list the ingredients of a lasting love relationship.
- 8. Distinguish among the different sexual behaviors: erotic dreams and fantasies, self-pleasuring techniques, kissing and touching, and sexual positions.
- 9. Define sexual orientation and describe the social ramifications associated with each type, including prejudice, privilege, law, psychological and medical risk factors, and statistical data on relational issues.
- 10. Compare and contrast advantages and disadvantages of the male and female contraceptive devices, with emphasis on oral contraceptives, barrier apparatus, intrauterine devices, and sterilization.
- 11. Compare and contrast the various medical, mechanical and surgical procedures for the treatment of sexual dysfunctions.
- 12. Describe different types of sexual transmitted infections.
- 13. Discuss the evolutionary, social learning, and cultural factors that contribute to aggressive behaviors; distinguish the difference between physical, sexual and emotional abuse; and describe sexual harassment, its effects, and ways of coping.

## **Topics and Scope:**

- I. Perspectives on Human Sexuality
- II. Studying Human Sexuality
- III. Female Sexual Anatomy, Physiology, and Response
- IV. Male Sexual Anatomy, Physiology, and Response
- V. Gender and Gender Roles
- VI. Sexuality over the Life Span
- VII. Love, Intimacy, and Sexuality

- XIV. Sexual Difficulties, Dissatisfaction, Enhancement and Therapy
- XV. Sexually Transmitted Infections
- XVI. HIV and AIDS
- XVII. Sexual Coercion
  - A. Harassment
  - B. Aggression
  - C. Abuse
- XVIII. Sexually Explicit Materials, Prostitution, and Sex Laws

# **Assignment:**

- 1. Read approximately 35 pages per week
- 2. Writing assignment that may include research, experiential, response, or project for a minimum of 1,250 words
- 3. Quizzes, exams, and a final
- 4. Oral presentation and/or group project may be assigned

#### Methods of Evaluation/Basis of Grade:

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

Research, experiential, response, or project paper

Writing 30 - 60%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

None

Problem solving 0 - 0%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

None

Skill Demonstrations 0 - 0%

**Exams:** All forms of formal testing, other than skill performance exams.

Quizzes, Exams, and a Final

Exams 40 - 60%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

Oral presentation, group project

Other Category 0 - 10%
