Certificate Applicable Course

## COURSE CONTENT

**Outcomes and Objectives:**

The student will be able to identify common methods of measurement conversions. Identify most important parts of the lathe, drill, and mill relative to producing parts on manual machines.

**Topics and Scope:**

Machine 51A gives the student hands-on experience on lathe, drill press, and mill. Although not taught in detail for job applications, students are exposed to machining from the consumer aspect. Processes and terminology of tools is discussed both in lecture and laboratory experience.

**Assignment:**

Reading from assigned text, weekly quizzes based on reading and lab assignments developed by instructor.

**Methods of Evaluation/Basis of Grade:**

**Writing:** Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None

Writing  
0 - 0%

**Problem Solving:** Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Homework problems, Quizzes, Exams

Problem solving  
0 - 20%

**Skill Demonstrations:** All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances

Skill Demonstrations  
0 - 40%

**Exams:** All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items

Exams  
0 - 30%

**Other:** Includes any assessment tools that do not logically fit into the above categories.

None

Other Category  
0 - 0%

**Representative Textbooks and Materials:**

Machine Tool Practices, Kibbe, R., Neely, D., and White, W.
