		Non-contact DHR	3.00		Non-contact DHR	24.00

Total Out of Class Hours: 32.00

Total Student Learning Hours: 96.00

Title 5 Category: AA Degree Applicable

Grading: Grade Only

Repeatability: 05 - May Be Taken for a Total of 4 Units

Also Listed As:

Formerly: ENGR 56

Catalog Description:

Introduction to computer-aided drafting utilizing the AutoCAD software program. Course will teach the student how to use this Windows-based commercial software to execute professional quality drafting/design work. Particular attention will be given to the components of a CAD system, the software interface, drawing set-up, geometric construction & editing, orthographic projection, dimensioning, plotting, and an introduction to 3-dimensional drafting/design.

Prerequisites/Corequisites:

Course Completion or Current Enrollment in APTECH 45 (or APTECH 55 or IED 55)

Recommended Preparation:**Limits on Enrollment:****Schedule of Classes Information:**

Description: Intro to computer-aided drafting utilizing the AutoCAD software program. Areas covered include: drawing set-up, geometric construction & editing, orthographic projection, dimensioning, plotting, and an introduction to 3-dimensional drafting/design. Course will teach students how to use this Windows-based commercial software to execute professional quality

work. (Grade Only)

COURSE CONTENT

Outcomes and Objectives:

The students will:

1. Define how a PC-CAD workstation is organized including types and functions of the workstation hardware.
2. Demonstrate how to access and use appropriate AutoCAD menus by:
 - a. Tool Bars
 - b. Pulldown menus
 - c. by keyboarding.
 - d. the mouse.
3. Illustrate how to use the following AutoCAD commands and settings by establishing or creating
 - a. units and sheet size
 - b. layers, linetypes and color.
 - c. precise geometric entities
 - d. dimensioning drawings.
 - e. setting variables
 - f. storing drawing elements.
 - g. saving drawings.

Topics and Scope:

1. Introduction to the computer as a drafting/design tool with emphasis on hardware and software.
2. Using the AutoCAD software interface
3. Setting up a drawing and accessing drawing commands.

4. Editing the drawing.
5. Plotting and filing drawings.
6. Student/instructor created data base drawings.

Assignment:

1. Reading and written assignments as assigned by instructor.
2. AUTOCAD exercises and drawings.

Methods of Evaluation/Basis of Grade:

Writing: Assessment tools that demonstrate writing skills and/or require students to select, organize and explain ideas in writing.

None, This is a degree applicable course but assessment tools based on writing are not included because problem solving assessments and skill demonstrations are more appropriate for this course.

Writing
0 - 0%

Problem Solving: Assessment tools, other than exams, that demonstrate competence in computational or non-computational problem solving skills.

Quizzes, DATA BASE DRAWINGS

Problem solving
5 - 35%

Skill Demonstrations: All skill-based and physical demonstrations used for assessment purposes including skill performance exams.

Class performances, Performance exams, DATA BASE DRAWINGS

Skill Demonstrations
35 - 60%

Exams: All forms of formal testing, other than skill performance exams.

Multiple choice, True/false, Matching items, Completion, COMPUTER GENERATED DRAWINGS

Exams
10 - 35%

Other: Includes any assessment tools that do not logically fit into the above categories.

None

Other Category
0 - 0%
