COURSE CONTENT

Outcomes and Objectives:

Upon successful completion of this course, the student will be able to:

1. Employ safe and hygienic food handling procedures relating to the preparation of chocolate products.
2. Describe how chocolate is processed and made into a variety of products.
3. Describe characteristics, flavors, and handling properties of a variety of chocolate products.
4. Explain chocolate percentages and what they mean.
5. Identify, by tasting, the ingredients used to make an assortment of chocolates.
6. Assess chocolate quality by examining ingredient labels on an assortment of chocolates.
7. Select quality chocolate for particular uses, based on price, flavor, and handling characteristics, from a list of chocolate suppliers.
8. Explain and apply to preparation of products the relationships between chocolate and other ingredients used with chocolate, such as sugars, types of flours, whipped cream and eggs.
9. Temper chocolate by two different methods.
10. Store chocolate correctly.
11. Properly use a variety of chocolates to produce baked products, decorations, and confections.
12. Analyze and evaluate finished products.
13. Cost out products for sale.
